Three Important Reasons to Register Your Product Immediately!

1 **Protect Your New Investment...**
Register your new Projection Display for insurance purposes in case your new Projection Display is stolen.

2 **Product safety notification...**
Registering your product can help us to contact you in the unlikely event a safety notification is required under the Consumer Product Safety Act.

3 **Improved Product Development...**
Help us continue to design products that meet your needs.

Register online at **www.panasonic.com/register**

DTV ATSC CERTIFIED * DIGITAL TELEVISION

* The presence of the DTV certification mark indicates that this product will successfully receive digital television transmissions that conform to any and all of the video formats described in the ATSC Digital Television Standard.

ENERGY STAR

As an ENERGY STAR® Partner, Panasonic Corporation of North America has determined that this product or product model meets the ENERGY STAR® guidelines for energy efficiency.

This operating instruction book is designed for use with models PT-50LCZ70, PT-56LCZ70, PT-61LCZ70, PT-50LCZ7, PT-56LCZ7, PT-61LCZ7, PT-50LCZ70-K, PT-56LCZ70-K and PT-61LCZ70-K. Illustrations in this manual show the PT-56LCZ70.

Before connecting, operating or adjusting this product, please read the instructions completely.
Please keep this manual for future reference.

LSQT1225 B

⚠ IMPORTANT SAFETY INSTRUCTIONS

This symbol warns the user that uninsulated voltage within the unit may have sufficient magnitude to cause electric shock. Therefore, it is dangerous to make any kind of contact with any inside part of this unit.

This symbol alerts the user that important literature concerning the operation and maintenance of this unit has been included. Therefore, it should be read carefully in order to avoid any problems.

The pictorial representation of a hot surface within a triangle is intended to tell the user that parts inside the product are a risk of burns to persons.

Note to CATV System Installer:

This reminder is provided to call the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

⚠ WARNING

To reduce the risk of electric shock, fire, injury to persons or damage to this product:

1) **Read these instructions** before using, connecting or adjusting this product.
2) **Keep these instructions** for future reference.
3) **Heed all warnings** on the product and in this Operating Instructions manual.
4) **Follow all instructions** carefully.
5) **Do not use this apparatus near water.** For example, near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement or near a swimming pool, and the like. Do not place objects filled with water, such as a vase or the like, on top of this unit.
6) **Clean only with a dry cloth.** Do not use liquid cleaners or aerosol cleaners.
7) **Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.** Openings in the cabinet are provided for ventilation to ensure reliable operation and to protect it from overheating. Never block openings by placing the product on a bed, sofa or similar surfaces.
8) **Do not install near any heat source such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produces heat.** Do not install in a built-in installation such as a bookcase or rack, unless proper ventilation is provided or the manufacturer's instructions have been adhered to.
9) **Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.**
10) **Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.**
11) **Only use attachments/accessories specified by the manufacturer.**
12) **Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.**

13) **Unplug this apparatus during lightning storms or when unused for long periods of time.**
14) **Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.**

⚠ IMPORTANT SAFETY INSTRUCTIONS (CONTINUED)

⚠ WARNING

AS WITH ANY SMALL OBJECT, SD CARDS CAN BE SWALLOWED BY YOUNG CHILDREN. DO NOT ALLOW CHILDREN TO HANDLE THE SD CARD.

⚠ WARNING

TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS EQUIPMENT TO RAIN OR MOISTURE. DO NOT PLACE OBJECTS FILLED WITH WATER, SUCH AS A VASE OR THE LIKE, ON TOP OF THIS APPARATUS.

⚠ CAUTION

(1) This Projection Display is intended to be used with the following TV stand : model TY-50LC7, TY-56LC7, TY-61LC7, TY-50LC70, TY-56LC70, or TY-61LC70 for the PT-50LCZ70, PT-56LCZ70, PT-61LCZ70, PT-50LCZ7, PT-56LCZ7, PT-61LCZ7, PT-50LCZ70-K, PT-56LCZ70-K, or PT-61LCZ70-K. Use with other stands may result in the Projection Display becoming unstable, possibly causing injury.

(2) This Projection Display should not be exposed to direct sunlight, extreme temperatures or moisture, as this can result in serious irreparable damage.

– For U.S.A. only –

(3) This Projection Display TV has an Electrodeless Discharge Lamp that contains mercury. Disposal may be regulated in your community due to environmental considerations. For disposal or recycling information, please contact your local authorities, or the Electronic Industries Alliance: <http://www.eiae.org>

FCC STATEMENT:

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

FCC Caution:

To assure continued compliance, follow the attached installation instructions and use only shielded interface cables when connecting to computer or peripheral devices. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

ANY CHANGES OR MODIFICATIONS TO THIS PTV RECEIVER NOT EXPRESSLY APPROVED BY PANASONIC CORPORATION OF NORTH AMERICA COULD CAUSE HARMFUL INTERFERENCE, WHICH WOULD VOID THE USER'S AUTHORITY TO OPERATE THIS EQUIPMENT.

The Class Ⅱ insulation symbol (square within a square) indicates that this product has been evaluated and tested to comply with Class Ⅱ insulation requirements.

Declaration of Conformity

Models Number:	**PT-50LCZ70/PT-56LCZ70/PT-61LCZ70/PT-50LCZ7/PT-56LCZ7/PT-61LCZ7**
Trade Name:	Panasonic
Responsible party:	Panasonic Corporation of North America
Address:	One Panasonic Way, Secaucus, New Jersey 07094
Telephone number:	1-888-VIEW PTV(843-9788)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CANADIAN NOTICE:

1. Cable Compatible Television Apparatus
2. This Class B digital apparatus complies with Canadian ICES-003.

Before Using

Receiver Location

This Projection Display is intended to be used with an optional stand or entertainment center. Consult your dealer for available options.
Situate for comfortable viewing. Avoid placing where sunlight or other bright light (including reflections) will fall on the screen.
Use of some types of fluorescent lighting can reduce Remote Control transmitter range.
Adequate ventilation is essential to prevent internal component failure. Keep away from areas of excessive heat or moisture.

Optional External Equipment

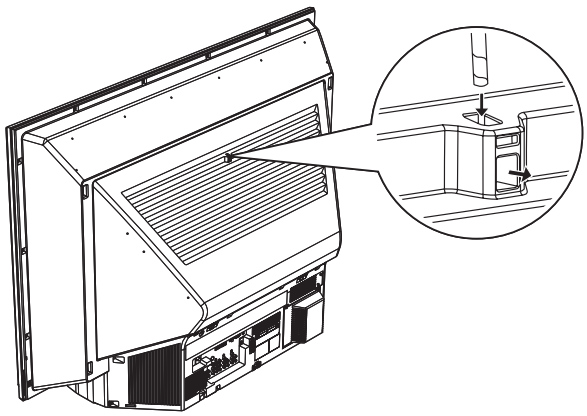

The Video / Audio connection between components can be made with shielded video and audio cables. For best performance, video cables should utilize 75 Ω coaxial shielded cables. Cables are available from your dealer or electronics store.
Before you purchase any cables, be sure you know what type of output and input connectors your various components require. Also determine the length of cable you'll need.

Safety Precaution

Please take safety precautions to prevent the unit from falling over.

⚠ WARNING

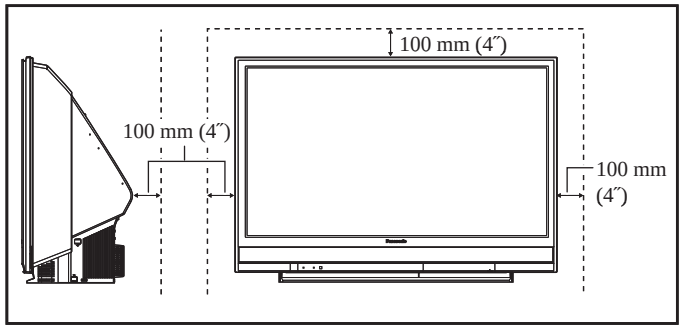

The unit may tip or fall if not situated on a stable surface, if pushed or during an earthquake. Use a strong rope or chain (not included) to fasten the Projection Display firmly to a strong wall support.

Installation Dimensions Diagram

⚠ CAUTION

Keep the unit at least 100 mm (4) away from the wall to provide proper ventilation because warm air is discharged. Blocking the ventilation opening of the cooling fan may damage the unit.

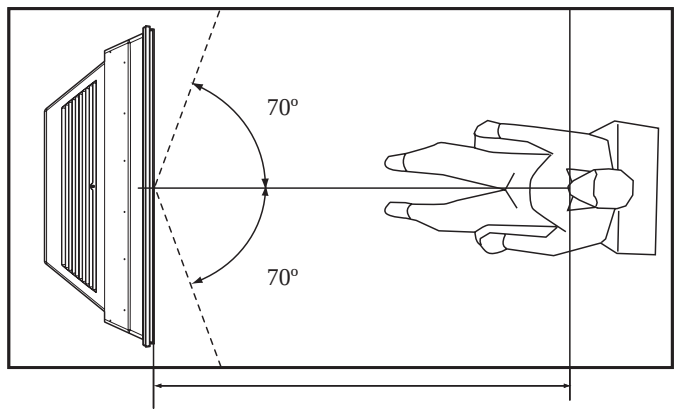

Accessories

1. Remote Control (N2QAYB000100)
2. Batteries 2 "AA"
3. Cleaning cloth (LSFQ0003)

Viewing position

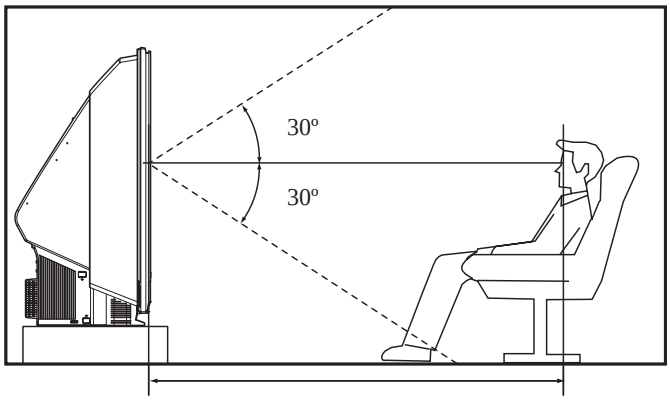

To optimize your viewing comfort, please follow the viewing guidelines shown in the diagrams below.
If viewing for an extended period of time, sit as far back from the screen as possible.

< Top view >

At least
1.8 m (PT-50LCZ70/PT-50LCZ7/PT-50LCZ70-K) /
2.0 m (PT-56LCZ70/PT-56LCZ7/PT-56LCZ70-K) /
2.2 m (PT-61LCZ70/PT-61LCZ7/PT-61LCZ70-K).

< Side view >

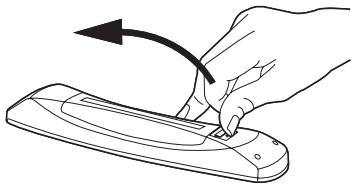

At least
1.8 m (PT-50LCZ70/PT-50LCZ7/PT-50LCZ70-K) /
2.0 m (PT-56LCZ70/PT-56LCZ7/PT-56LCZ70-K) /
2.2 m (PT-61LCZ70/PT-61LCZ7/PT-61LCZ70-K).

Remote Control Battery Installation

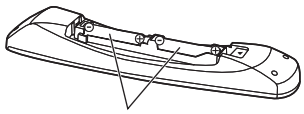

Requires two AA batteries (supplied).

1. While pressing in on the catch, open cover in direction of arrow.

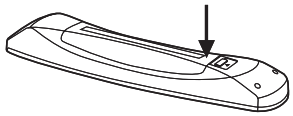

2. Install batteries in the battery compartment.

- Battery polarity (+) and (-) must match the markings inside the compartment.

Two AA size

3. Press cover until it snaps shut.

⚠ CAUTION

Incorrect battery installation can cause the batteries to leak, leading to personal injury and/or damage to the Remote Control.

Observe the following precautions:

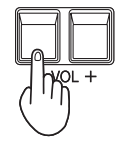

1. Always replace batteries with a pair of new ones.
2. Do not combine a new battery with an old one.
3. Do not mix battery types (example: “Zinc Carbon” with “Alkaline”).
4. Do not attempt to charge, short-circuit, disassemble, heat or burn used batteries.
5. Battery replacement is necessary when the Remote Control acts sporadically or stops operating the Projection Display set.

Helpful Hints:

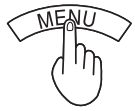

(1) Frequent Remote Control users choose long-lasting Alkaline batteries as replacements.
(2) Whenever batteries are removed, **you may need to reset Remote Control infrared codes.** We suggest making a note of the codes on page 56 prior to setting up the remote.

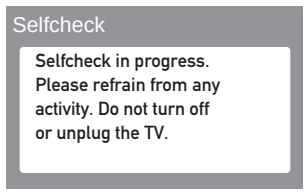

Reset All Memory Functions

Use when moving unit to a new location, or when First Time Setup needs to be done over.

Press together the VOL- button on the unit and MENU button on the Remote Control for more than 3 seconds.

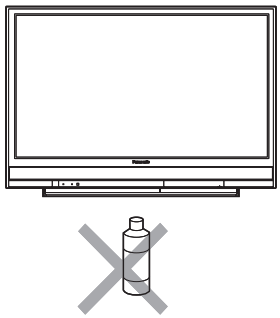

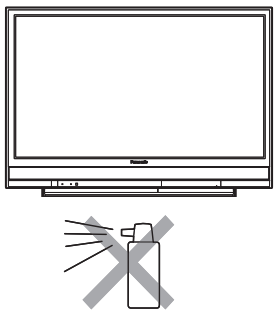

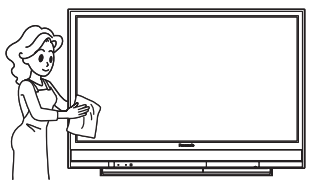

After the above message indication disappeared, unplug the unit then plug it back in and turn power ON.

Note

- When using “EZ Sync™ “HDAVI Control™””, with the device connected, set “EZ Sync” first to “Off” and then “On” using the Setup Menu. (p. 52-53)

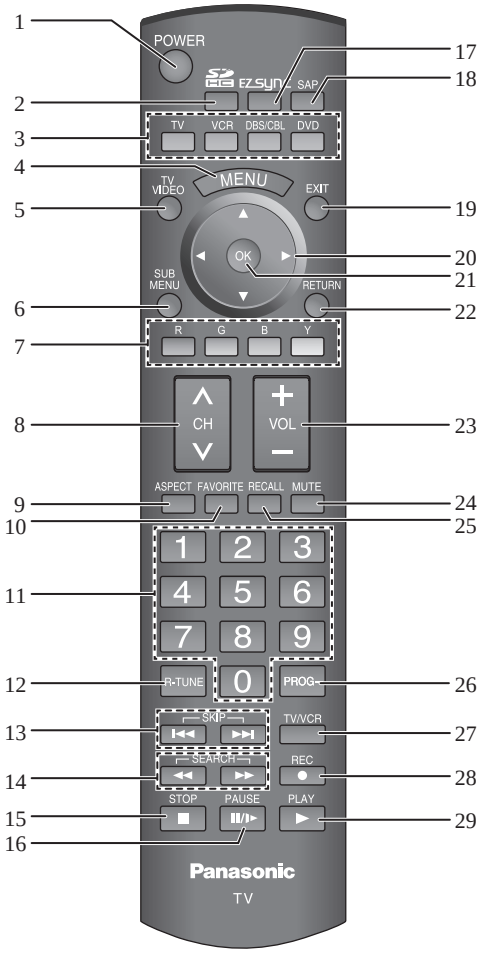

Cleaning

To ensure continued excellent performance from this product, periodic cleaning is recommended.

Projection Display	
	The unit contains many plastic parts. For this reason DO NOT use benzine, thinner or other chemicals to clean the unit.
	DO NOT bring into contact with insecticide or other volatile substances. DO NOT allow the unit to come into contact for extended periods with rubber or vinyl products.
	Remove dirt and soiling by wiping with a light cloth. Even if the unit is heavily soiled, do not apply cleaner directly to the unit. Soak a cloth in a solution of neutral cleanser diluted with water. Then wring out the cloth, wipe the unit clean, and finish by wiping with a dry cloth. Do not use any type of cleansers on the picture screen.
Picture Screen	
	Dust will accumulate on the picture screen. Please wipe with a soft cloth from time to time. If you use a chemically treated cloth, please be careful to follow the instructions that come with the cloth.

Notes

- Make sure the vents are not blocked. (This could cause damage.)
- Indication on the back panel may change without notice.

Installation

Connected Equipment Introduction (Signal source)

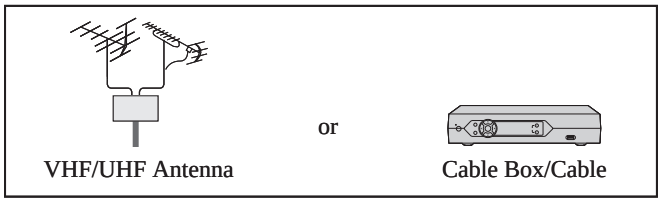

■ Watching TV

VHF/UHF Antenna

- NTSC (National Television System Committee): Conventional broadcasting
- ATSC (Advanced Television Systems Committee): Digital TV Standards include digital high-definition television (HDTV), standard-definition television (SDTV), data broadcasting, multi-channel surround-sound audio and interactive television.

Cable Box/Cable

- You need to subscribe to a cable TV service to enjoy viewing their programming.
- You can enjoy high-definition programming by subscribing to a high-definition cable service. The connection can be done with the use of HDMI or Component Video cable.

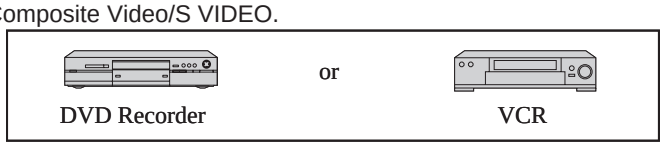

■ Recording/playing back with DVD recorder or VCR

DVD Recorder

This source has higher resolution through interlace or progressive signal. Connection can be done with the use of Component Video or HDMI cable.

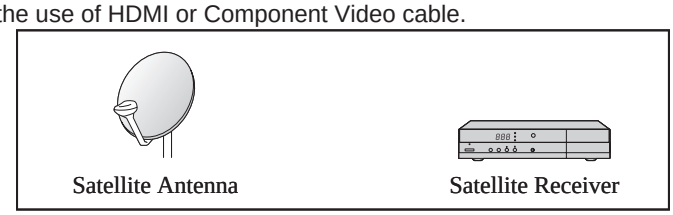

VCR

Connection can be done with the use of an RF cable and Composite Video/S VIDEO.

■ Watching Satellite

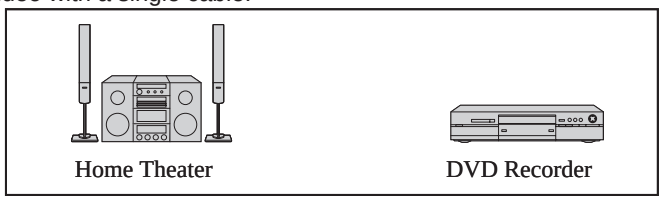

You can enjoy high-definition programming by subscribing to a high-definition satellite service. Connection can be done with the use of HDMI or Component Video cable.

■ Enjoying Home theater and DVD recorder with HDMI connection

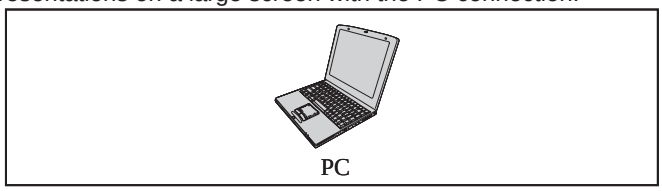

Home theater and DVD Recorder

HDMI connection enables you to enjoy higher quality audio and video with a single cable.

■ Enjoying large screen capabilities with PC connection

You can enjoy playing computer games or making presentations on a large screen with the PC connection.

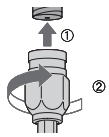

Notes

- If your Panasonic DVD Recorder is compatible with EZ Sync (HDAVI control 2), you can operate your Panasonic DVD Recorder with this Projection Display's remote control (EZ Sync™ on page 34).
- All cables and external equipment shown in this book are not supplied with this Projection Display.
- For the details of the external equipment's connections, please refer to the operating manuals for the equipment.

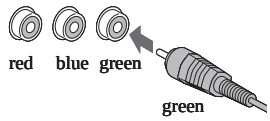

Reference of connection

■ Antenna terminal

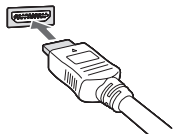

- Firmly tighten by hand.

■ Pin terminals

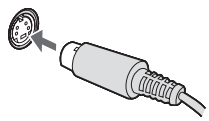

- Match colors of plugs and terminals.
- Insert firmly.

■ HDMI terminal

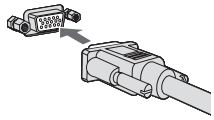

- Insert firmly.

■ S VIDEO terminal

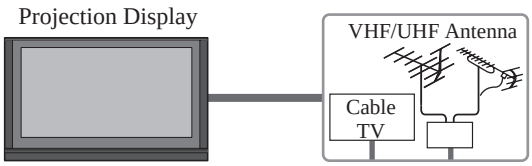

- Insert firmly.

■ PC terminal

- Insert firmly.

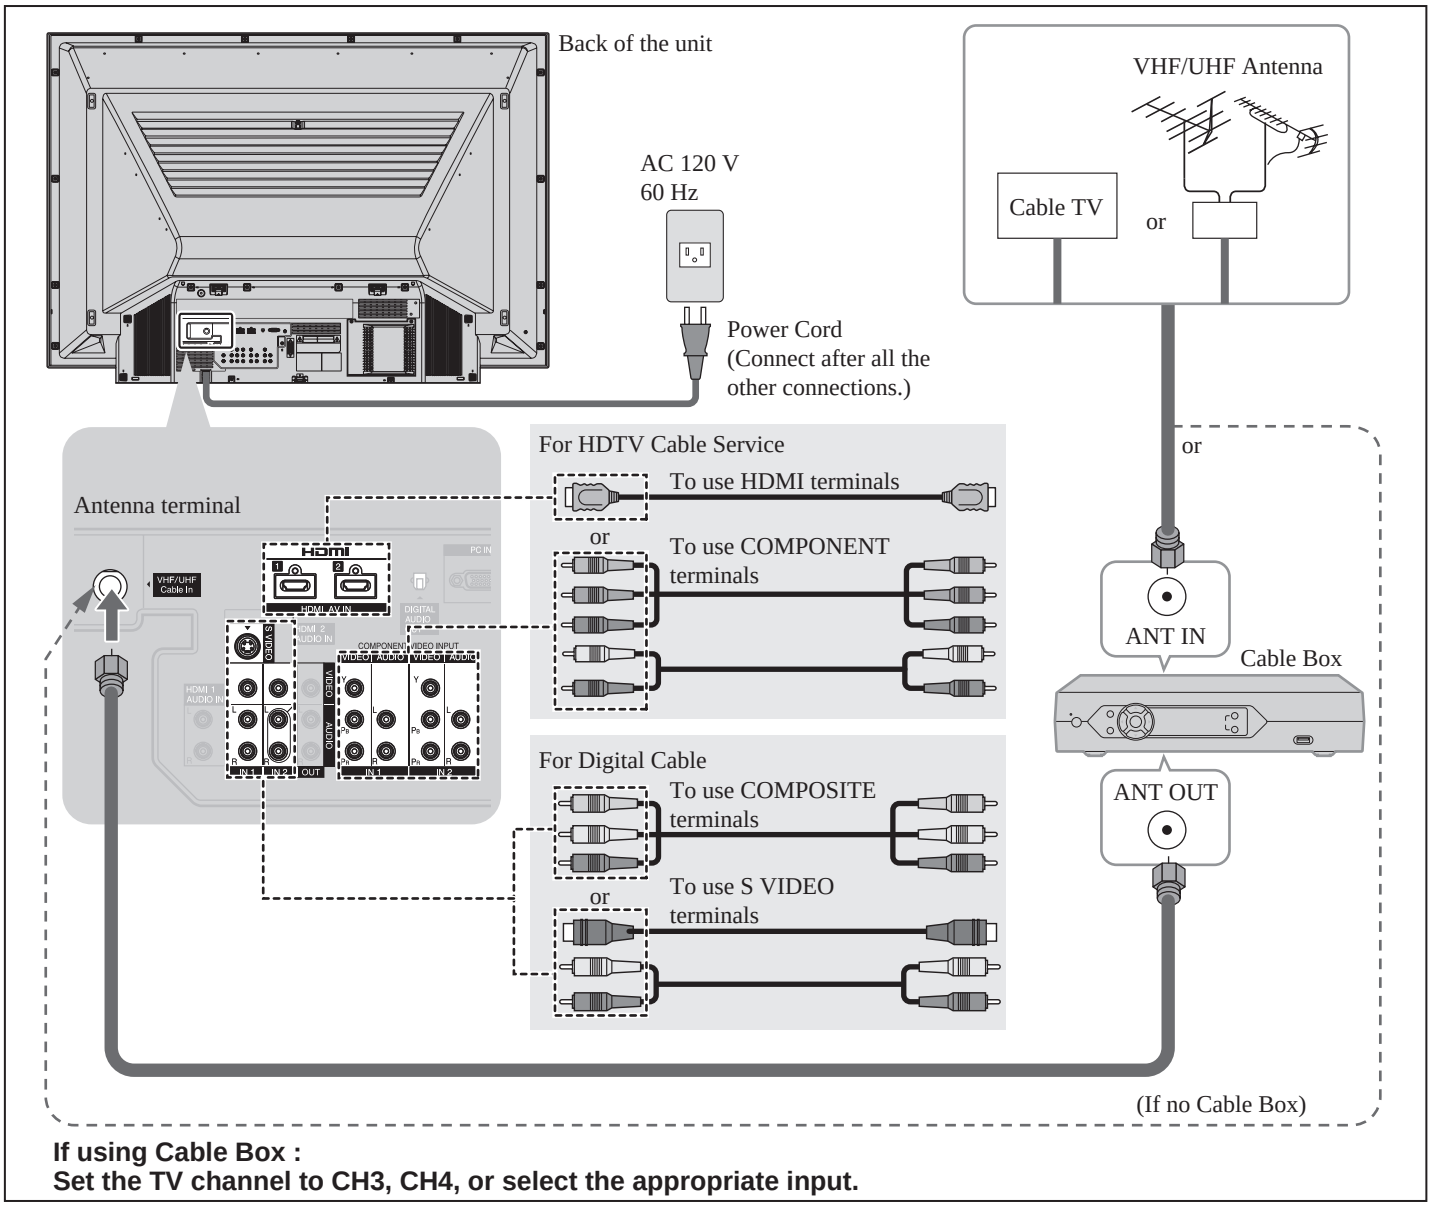

Example 1 Connecting Antenna (To watch TV)

⚠ CAUTION

When using "Nut type" RF coaxial cable, tighten with fingers only. Overtightening may damage terminal.

To connect antenna terminals

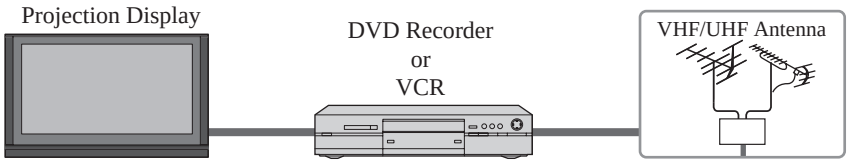

If using Cable Box :
Set the TV channel to CH3, CH4, or select the appropriate input.

Note

- For additional assistance, visit us at : www.panasonic.com
  www.panasonic.ca

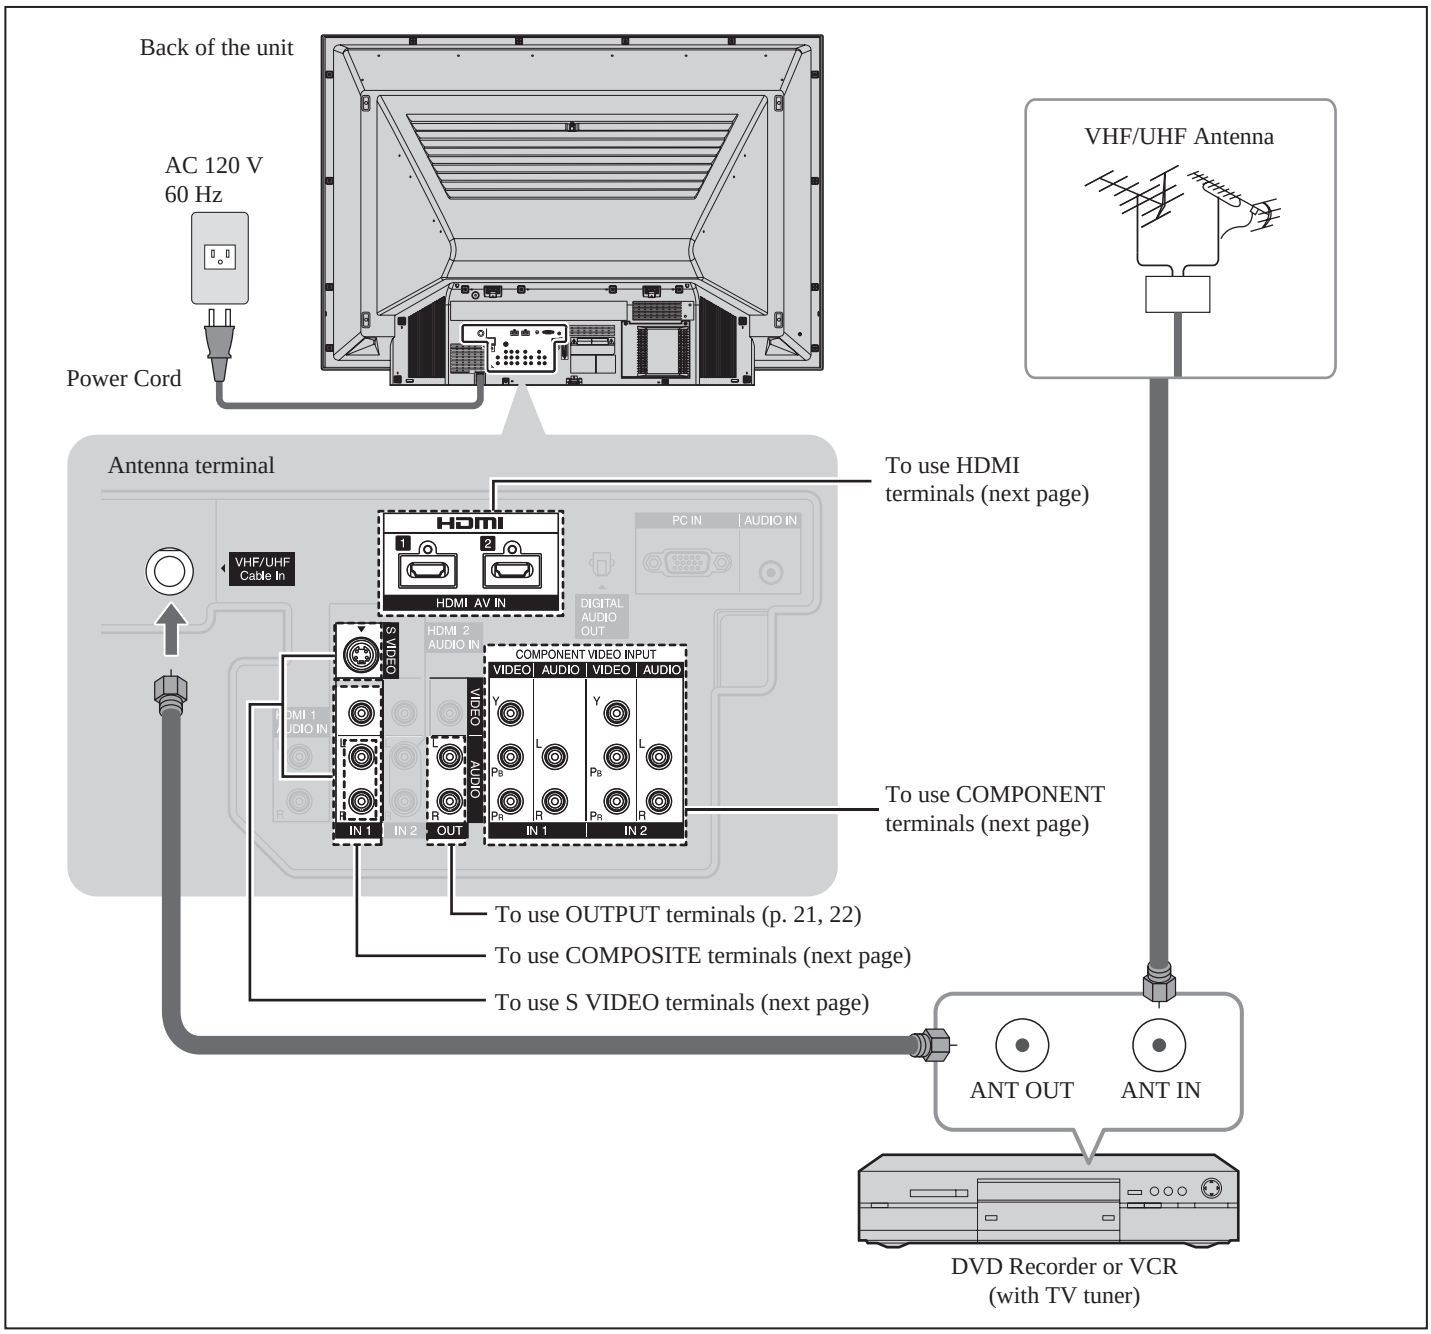

Example 2 Connecting DVD recorder (VCR) (To record/playback)

⚠ CAUTION

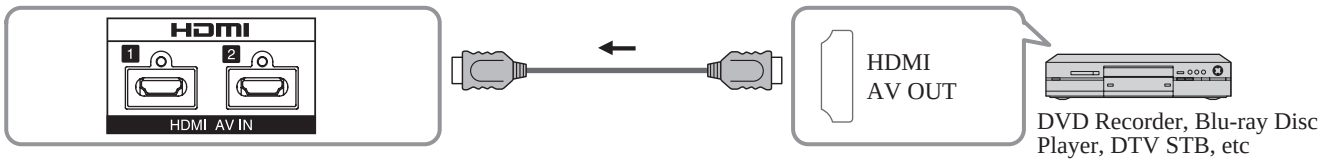

When using “Nut type” RF coaxial cable, tighten with fingers only. Overtightening may damage terminal.

To connect antenna terminals

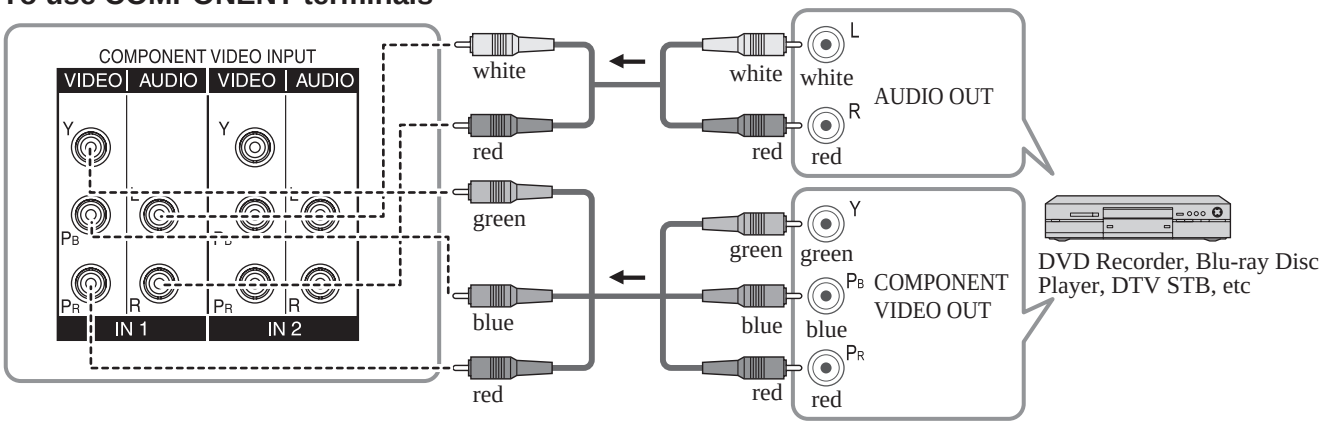

High-Definition

■ To use HDMI terminals

- Connecting to HDMI terminals will enable you to enjoy high-definition digital images and high-quality sound by connecting this Projection Display and the devices.

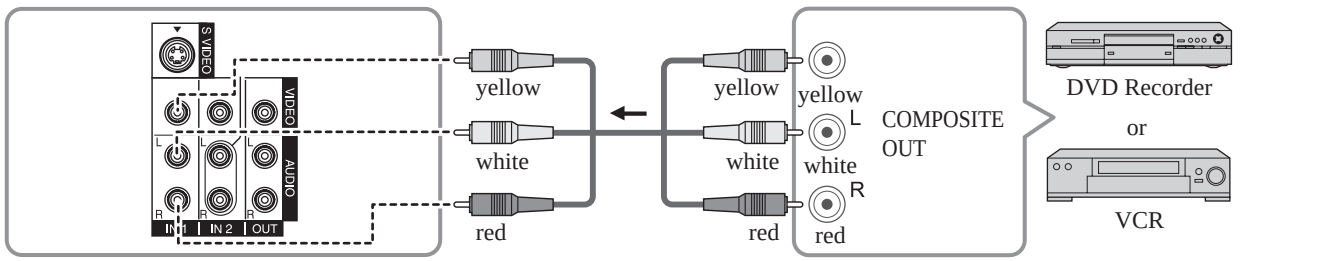

■ To use COMPONENT terminals

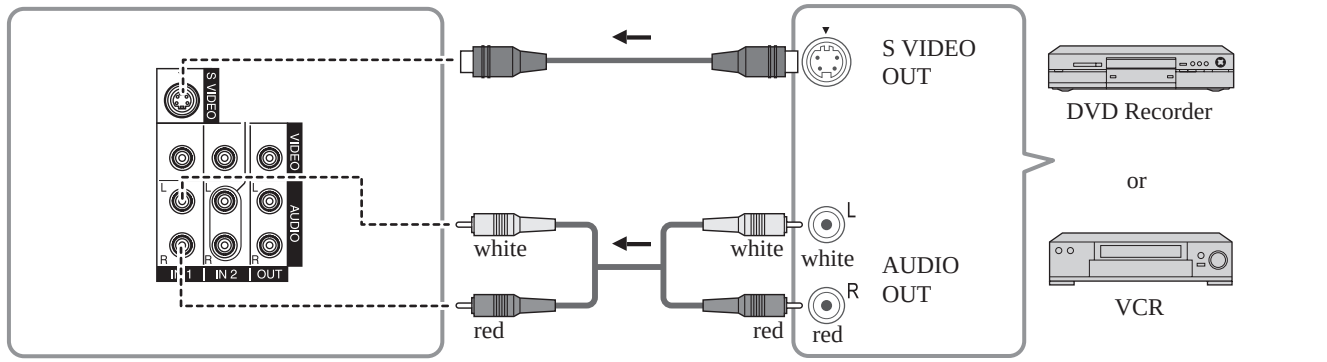

- Recorders may also be connected to COMPOSITE or S VIDEO terminals. (see below.)

Standard-Definition

■ To use COMPOSITE terminals

■ To use S VIDEO terminals

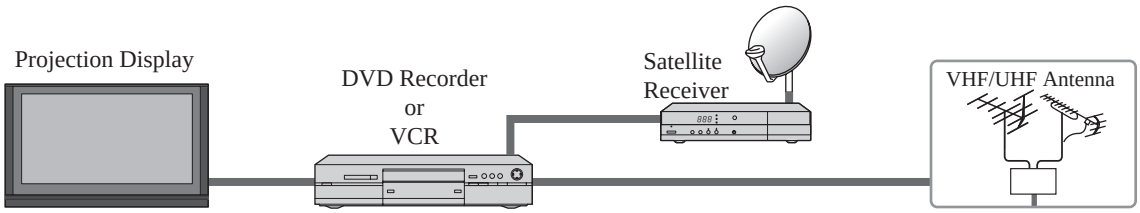

- The S Video input will override the composite video signal when S Video cable is connected. Connect either S Video or Video cable.
- Connecting to S VIDEO terminals will enable you to enjoy greater picture quality than using Composite terminals.

Notes

- Some programs contain a copyright protection signal to prevent recording.
- When the copyright protection program is displayed, do not connect the other TV monitor through a VCR. Video signals fed through VCRs may be affected by copyright protection systems and the picture will be distorted on the other TV monitor.

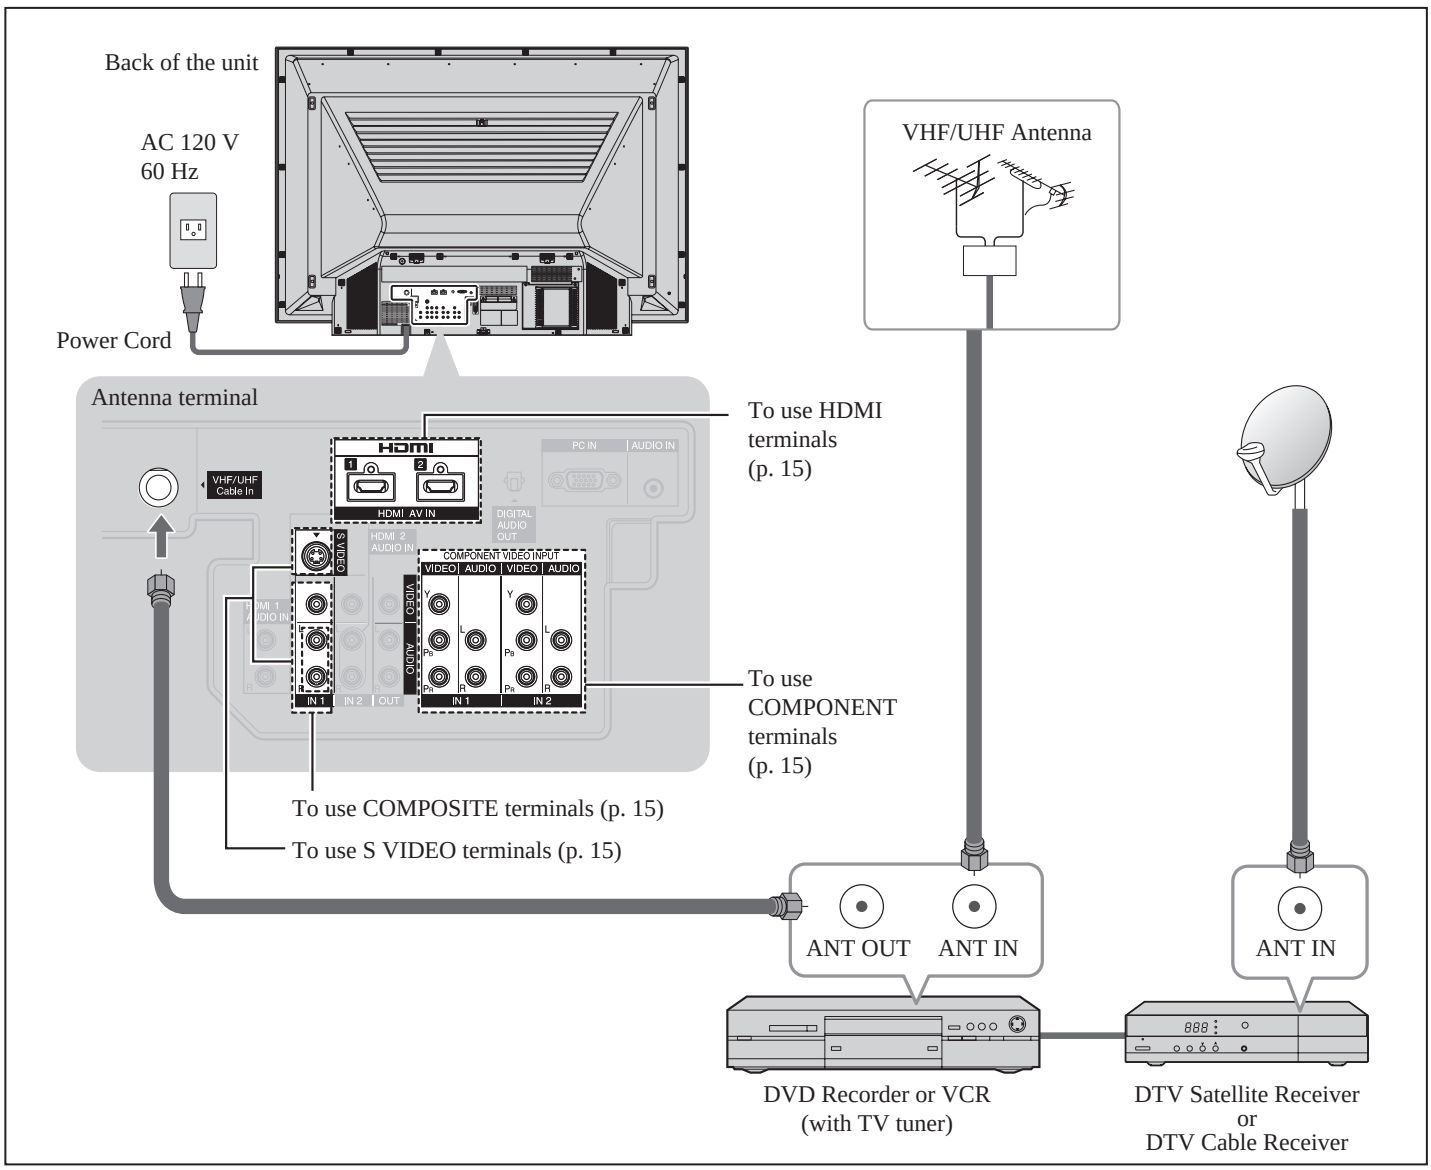

Example 3 Connecting DVD recorder (VCR) and satellite receiver

⚠ CAUTION

When using "Nut type" RF coaxial cable, tighten with fingers only. Overtightening may damage terminal.

To connect antenna terminals

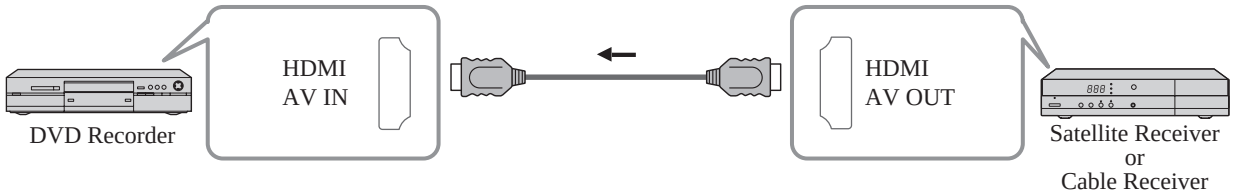

Connecting this Projection Display and DVD recorder (VCR)

Connect in the same way as on page 15.

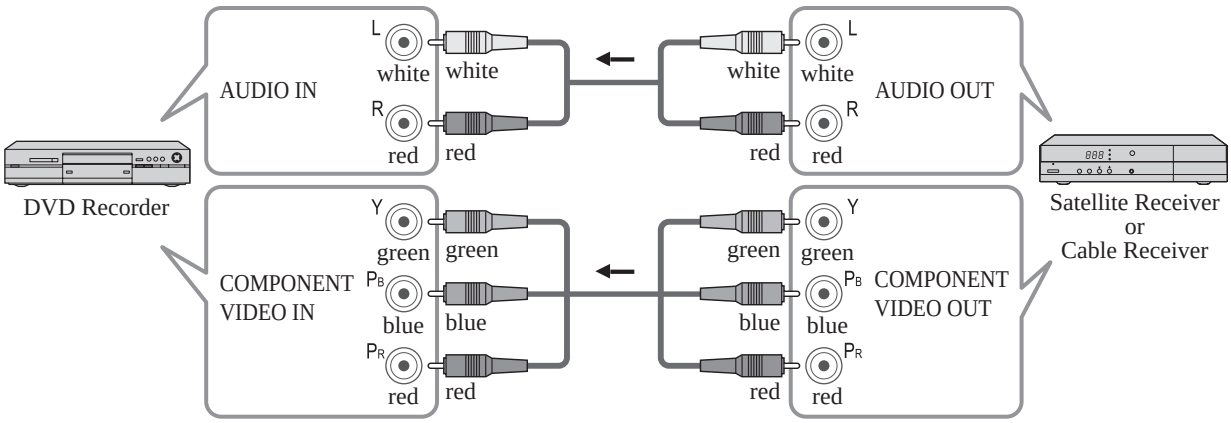

To connect DVD recorder and satellite receiver

■ To use HDMI terminals

- Connecting to HDMI terminals will enable you to enjoy high-definition digital images and high-quality sound.

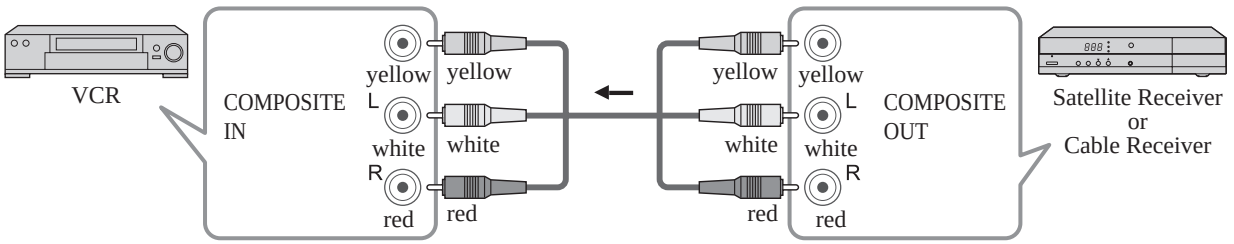

■ To use COMPONENT terminals

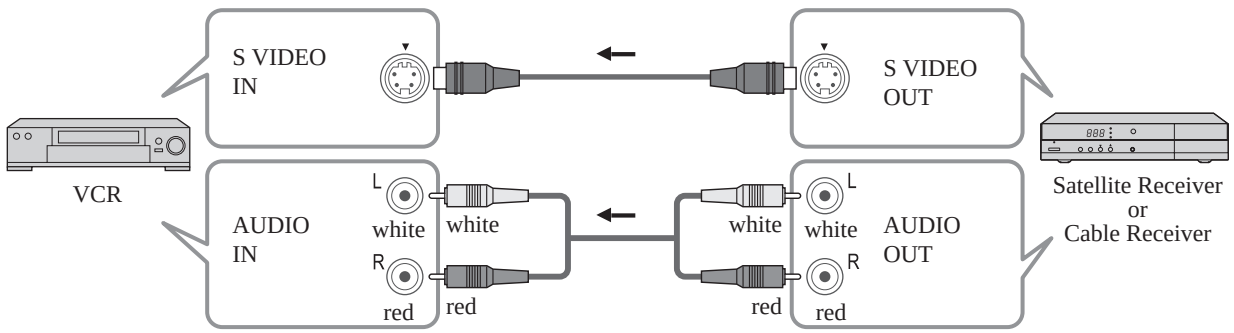

- Satellite Receiver may also be connected to COMPOSITE or S VIDEO terminals. (see below.)

To connect VCR and satellite receiver

■ To use COMPOSITE terminals

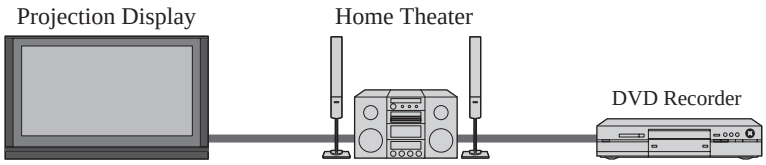

■ To use S VIDEO terminals

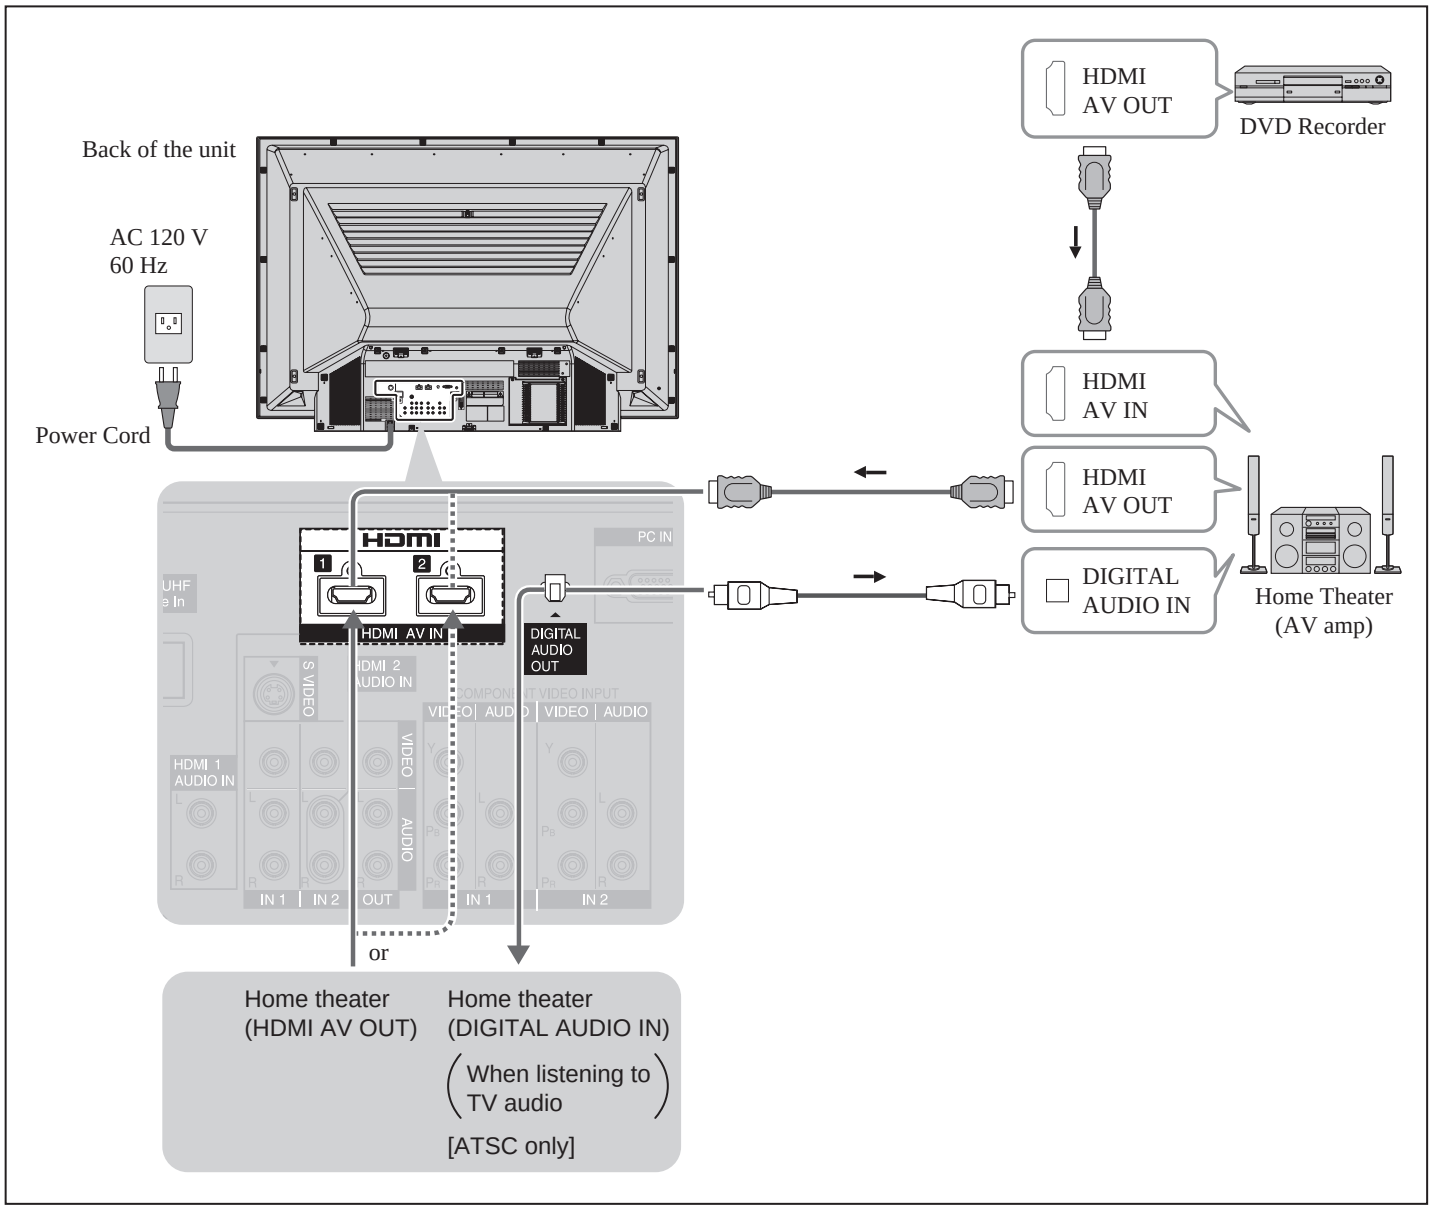

- The S Video input will override the composite video signal when S Video cable is connected. Connect either S Video or Video cable.
- Connecting to S VIDEO terminals will enable you to enjoy greater picture quality than using Composite terminals.

Example 4 Connecting Home Theater and DVD recorder

To connect HDMI terminals

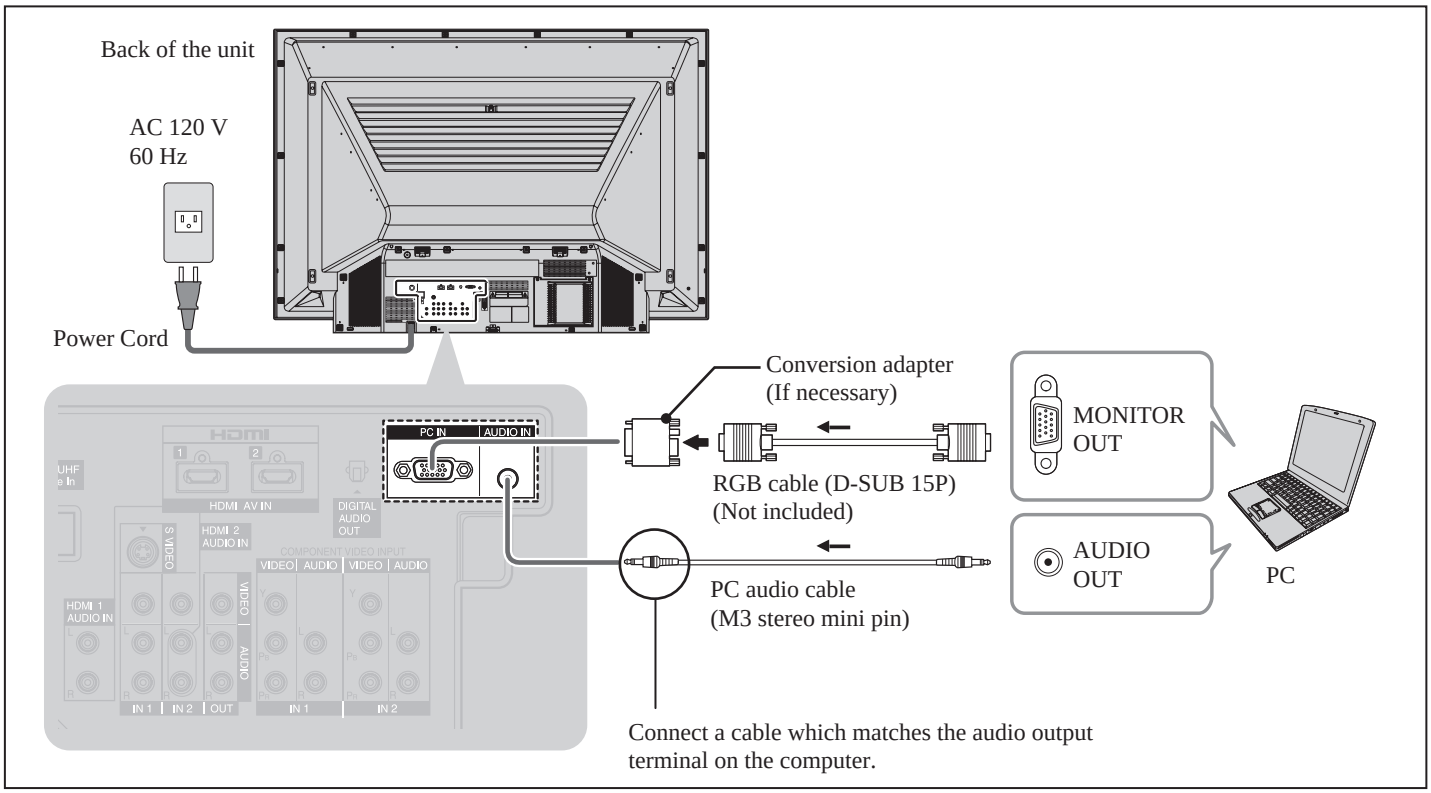

Notes

- It is recommended that you use Panasonic's HDMI cable. (p. 52)
- When Using the COMPONENT VIDEO OUT terminals or the S VIDEO OUT terminal, refer to page 17 "To use COMPONENT terminals" or "To use S VIDEO terminals".
- If you connect RAM theater or Player theater with HDMI cable, use audio cable instead of the optical digital audio cable. (p. 22)

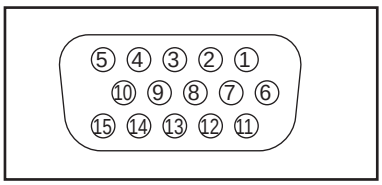

Example 5 Connecting PC

To connect PC terminals

PC IN Terminal (D-SUB 15P) Pin Layouts

Connection port view

Pin No.	Signal name

15	NC

NC: Not connected

Notes

- Some PC models cannot be connected to the set. A conversion adapter is required to use the RGB cable (D-SUB 15P) (Not included) to connect a Macintosh computer to the set. There is no need to use an adapter for computers with PC / AT compatible D-SUB 15P terminal.
- The computer shown in the illustration is for example purposes only. Additional equipment and cables shown are not supplied with this set.
- Do not set the horizontal and vertical scanning frequencies for PC signals which are above or below the specified frequency range.
- Select the desired PC input position by pressing the TV/VIDEO button on the Remote Control. (p. 29)

RGB signals that can be input

The table below lists the different types of RGB signals that can be input.
If a signal which differs greatly from the types listed below is input, the picture may not be displayed correctly, or a black background may be displayed.

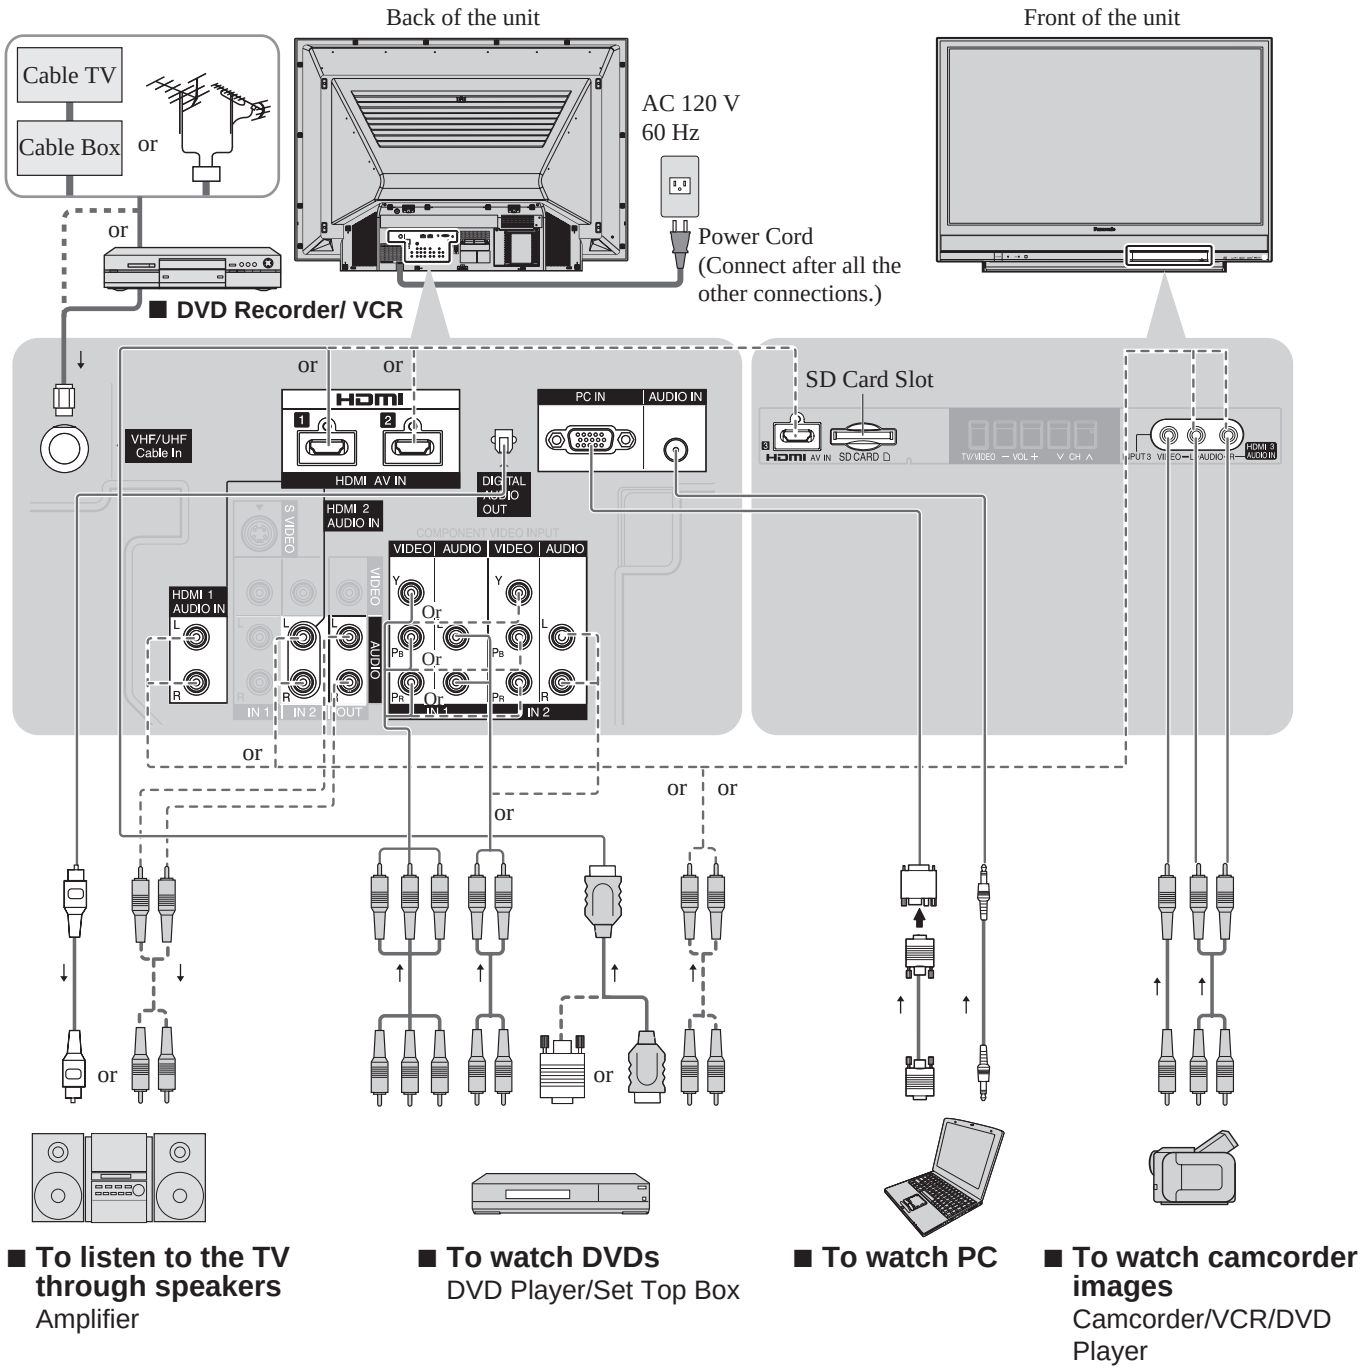

Mode type		Signal data		
		No. of dots (H × V)	Horizontal frequency (kHz)	Vertical frequency (Hz)
Personal Computer Signals	VGA400 (70 Hz)	640 × 400	31.47	70.08
	VGA480 (60 Hz)	640 × 480	31.47	59.94
	Macintosh 13 *	640 × 480	35.00	66.67
	VGA480 (75 Hz)	640 × 480	37.50	75.00
	SVGA (60 Hz)	800 × 600	37.88	60.32
	SVGA (75 Hz)	800 × 600	46.88	75.00
	SVGA (85 Hz)	800 × 600	53.67	85.06
	Macintosh 16 *	832 × 624	49.73	74.55
	WVGA (60 Hz)	852 × 480	31.47	59.94

	XGA (70 Hz)	1 024 × 768	56.48	70.07
	XGA (75 Hz)	1 024 × 768	60.02	75.03
	XGA (85 Hz)	1 024 × 768	68.67	85.00
	Macintosh 21 *	1 152 × 870	68.68	75.06
	SXGA (60 Hz)	1 280 × 1 024	63.98	60.02
	WXGA (60 Hz)	1 366 × 768	48.39	60.04

Notes

- The D-SUB 15P connector can accept RGB (H-V sync separate).
- The signal with a * mark is compatible with sync on Green.
- To view a WXGA and WVGA picture, a setting change is necessary. Please refer to “PC Adjust” on page 37.

Recommended AV Connections

These diagrams show our recommendations for how to connect this Projection Display to your various equipment.
For other connections, consult the instructions and the specifications for each piece of equipment. (p. 63)
For additional assistance, please visit our website at: www.panasonic.com
www.panasonic.ca

■ **To listen to the TV through speakers**
Amplifier

■ **To watch DVDs**
DVD Player/Set Top Box

■ **To watch PC**

■ **To watch camcorder images**
Camcorder/VCR/DVD Player

Notes

- The picture and audio input signals connected to a terminal specified in “Monitor out” (p. 50) cannot be output from “OUTPUT” terminals. However, audio output can be obtained from “DIGITAL AUDIO OUT” terminal.
- To prevent howling and image oscillation, set the “Monitor out” setting when connecting the VCR with loop-connection. (p. 50)
- When equipment (STB, DVD, etc.) is connected to HDMI or COMPONENT terminals, only audio signals can be obtained. From the output terminals, no video signals can be passed.
- When receiving digital channel signals, all digital formats are down-converted to composite NTSC video to be output through the OUTPUT terminals.

EZ Sync™ Connections

Follow the connection diagrams below for HDAVI control of a single AV piece of equipment such as a Panasonic DIGA-DVD recorder, RAM theater, or Player theater system. Refer to pages 52-54 for Setup Menu settings and additional control information.
- Optional HDMI and/or optical cables are not provided.

If the connection (or settings) of equipment compatible with HDAVI control has been changed, switch the power of this unit Off then On again while the power of all equipment is On (so that the unit can correctly recognize the connected equipment) and check that DIGA, RAM theater, and Player theater playback operate.

Note

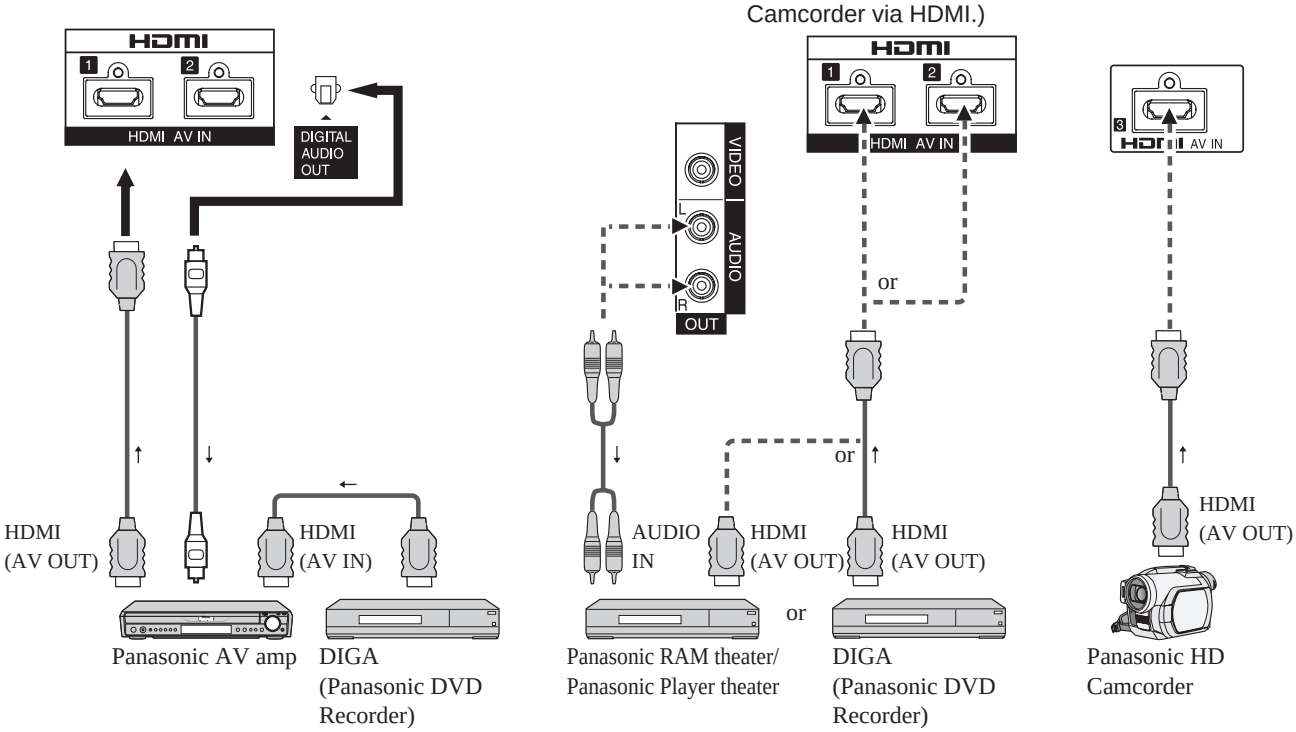

- HDMI 1 is recommended. When connecting to HDMI 2 or HDMI 3, set the input mode to HDMI 2 or HDMI 3 (p. 29) initially before connecting to HDMI 2 or HDMI 3. After connection, confirm the HDMI control functions (p. 52-54).

■ Connecting this unit to a DVD recorder and AV amp

When using an “EZ Sync” audio-video amplifier and a compatible DIGA recorder, use a daisy chain connection as shown below.

■ Connecting this unit to the DIGA, RAM theater, Player theater, or HD Camcorder

- For DIGA : Connect with HDMI cable
- For RAM theater and Player theater : Connect with the HDMI and audio cables. If audio cable is not connected, you cannot listen to the TV program through the theater system.
- For HD Camcorder : Connect with HDMI cable (HDMI 3 is recommended when connecting to a Camcorder via HDMI.)

- One AV amp and one DIGA recorder can be operated with this unit.
- Be sure to connect the AV amp between this unit and the DIGA recorder.

■ Setting this unit after connections

After making connections as shown above, set “EZ Sync” (under “EZ Sync setting”) first to “Off” and then “On” using the Setup Menu. (p. 52-53)

Notes

- Individual HDMI equipment may require additional menu settings specific to each model. Please refer to their respective operating instruction manuals.
- When audio from other equipment connected to this unit via HDMI is output using “DIGITAL AUDIO OUT” of this unit, the system switches to 2CH audio. (p. 52-53)
  (When connecting to an AV amp via HDMI, you can enjoy higher sound quality.)

HDMI connection

HDMI (high-definition multimedia interface) allows you to enjoy high-definition digital images and high-quality sound by connecting this Projection Display and the devices.
HDMI-compatible equipment (*1) with an HDMI or DVI output terminal, such as a Set Top Box or a DVD player, can be connected to the HDMI connector using an HDMI compliant (fully wired) cable.

- HDMI is the world's first complete digital consumer AV interface complying with a non-compression standard.
- If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adapter cable (*2).
- When the DVI to HDMI adapter cable is used, connect the audio cable to the audio input terminal.
- Audio settings can be made on the "HDMI 1 in", "HDMI 2 in" or "HDMI 3 in" menu screen. (p. 39)
  Applicable audio signal sampling frequencies (L.PCM): 48 kHz, 44.1 kHz, 32 kHz

(*1): The HDMI logo is displayed on an HDMI-compliant device.
(*2): Enquire at your local digital equipment retailer shop.

Notes

- Use with a PC is not assumed.
- All signals are reformatted before being displayed on the screen.
- If the connected device has an aspect adjustment function, set the aspect ratio to "16:9".
- This HDMI connector is "type A".
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- A device having no digital output terminal may be connected to the input terminal of either "COMPONENT", "S VIDEO", or "VIDEO" to receive analog signals.
- The HDMI input terminal can be used with only the following image signals: 480i, 480p, 720p, 1080i and 1080p. Match the output setting of the digital device.
- For details of the applicable HDMI signals, see below.

About HDMI

HDMI is the first all digital consumer electronics A/V interface that supports several uncompressed standards, enhanced and high-definition video formats as well as all existing multichannel audio formats. One jack supports both video and audio information. The HDMI/HDCP*1 input can be connected to an EIA/CEA 861/861D*2 compliant consumer electronic device, such as a Set Top Box or DVD player equipped with a HDMI output connection. By inputting a High-bandwidth Digital Content Protection (HDCP) high-definition picture source to the HDMI terminal of this unit, high-definition pictures can be displayed on the screen in their digital form. The HDMI input terminal is not intended to be used with personal computers. This unit is compatible with 1080p, 1080i, 720p, 480p and 480i formats. Select the output of the connected device to match that of the unit.

*1 HDMI/HDCP = High-Definition Multimedia Interface / High-Bandwidth Digital Copy Protection.
*2 EIA/CEA-861/861D Profiles compliance covers profiles for transmission of uncompressed digital video including high bandwidth digital content protection.

Input signals that can be displayed

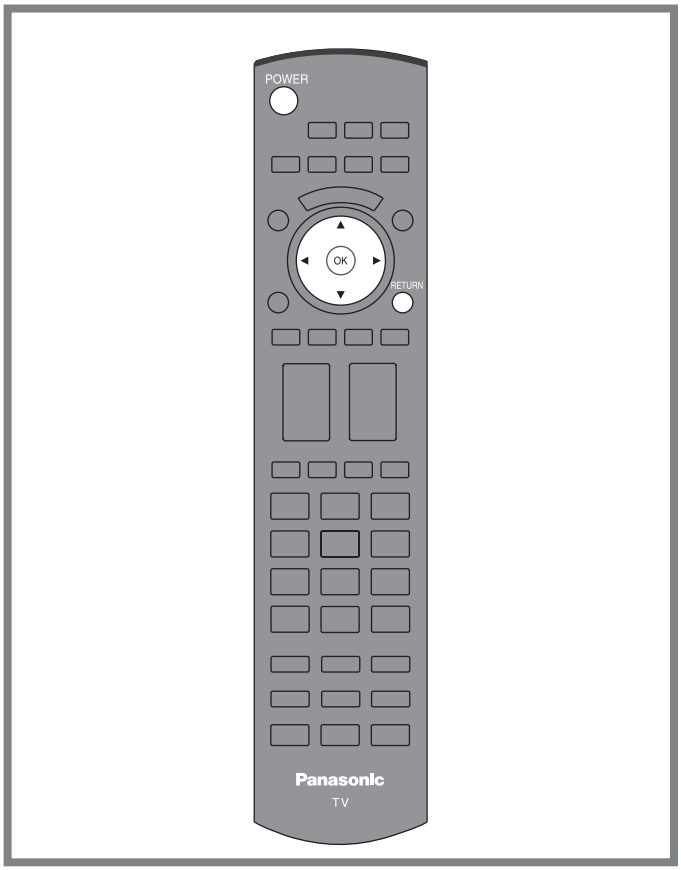

*Mark : Applicable input signal for Component (Y, P_B, P_R) and HDMI

	Horizontal frequency (kHz)	Vertical frequency (Hz)	COMPONENT	HDMI
480i	15.75/15.73	60/59.94	*	*
480p	31.50/31.47	60/59.94	*	*
720p	45.00/44.96	60/59.94	*	*
1080i	33.75/33.72	60/59.94	*	*
1080p	67.50/67.43	60/59.94		*

Notes

- Signals other than those shown above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.

Power ON / OFF

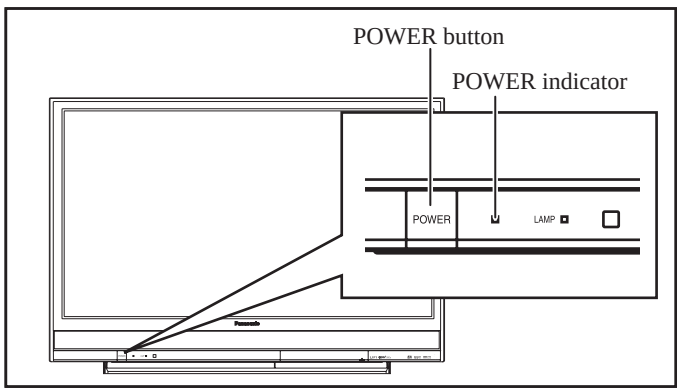

Turning the Power ON and OFF

Always be sure to follow the procedure given below to turn the Projection Display power ON and OFF.

- The lamp cooling fan will continue to operate for approximately 3 minutes after the power is turned off. During this time, the POWER indicator will blink Red.

Do not disconnect the power cord from the outlet and do not open the circuit breaker (unless necessary) while the cooling fan is still operating. Do not disconnect the power cord from the power outlet while the power indicator blinks Red.

The Power Indicator

LED	ACTION
Off	Power – OFF
Red (blinking)	Power – OFF (Now cooling)
Green	Power – ON
Green (blinking)	Power – ON (Preparing to light lamp)

Notes

- If the POWER button is accidentally turned off during use, after power is turned back on, it may take a short period before the lamp automatically comes on.
- This unit consumes approx. 0.4 W in OFF condition when plugged into an AC outlet.

Power ON

Press POWER on Projection Display or Remote Control to turn power on.

- The Power Indicator blinks Green for about 10 seconds and then turns solid Green.
- Picture display may be delayed when the unit has not been used for a long time or ambient temperature is low.
- The fan rotating sound may be increased in high temperature condition.

Power OFF

Press POWER on Projection Display or Remote Control to turn power off.

- Power shuts off after a Black Screen is displayed for about 3 minutes. If the POWER button is pressed during the Black Screen display, Power is turned back on.
- The Power Indicator blinks Red for about 3 minutes and then LED turns off.

Auto shut off

- If “No signal shut-off” has been selected “Set”, the TV will automatically turn off if NO SIGNAL is present for more than 10 minutes. (p. 54-55)
- If “No action shut-off” has been selected “Set”, the TV will automatically turn off if no key has been pressed for more than 3 hours. (p. 54-55)

First Time Setup

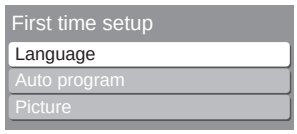

For your convenience, First Time Setup menu will be displayed on screen when the set is turned on for the first time. If needed, follow the menus and procedures displayed on-screen for setting up the features.

Language

The language of the on-screen display is set to English as the factory setting. You can select English, Spanish or French as the on-screen display language.

Procedure

1. **Press ▲▼ to select “Language”.**
2. **Press OK to display the Language menu.**

3. **Press ◄► to select “English,” “Español” or “Français”.**
4. **Press RETURN to go to previous screen.**

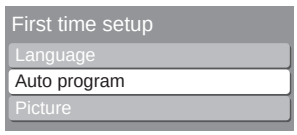

Auto program

You can scan All (Analog and Digital) channels. If needed, follow the menus and procedures displayed on-screen for setting up the features. You can also make the settings in Setup menu.

Procedure

1. **Press ▲▼ to select “Auto program”.**
2. **Press OK to display the Program channel menu.**

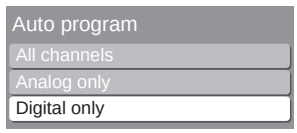

3. **Press ▲▼ to select “ANT in”.**
4. **Press ◄► to select “Cable” or “Antenna”.**

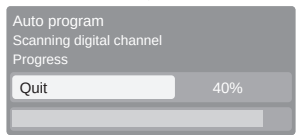

5. **Press ▲▼ to select “Auto”.**
6. **Press OK to display the Auto program menu.**

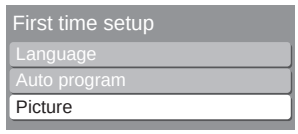

7. **Press ▲▼ to select “All channels”, “Analog only”, or “Digital only”.**
8. **Press OK to start scan.**
   • Channels available for reception will be set automatically.

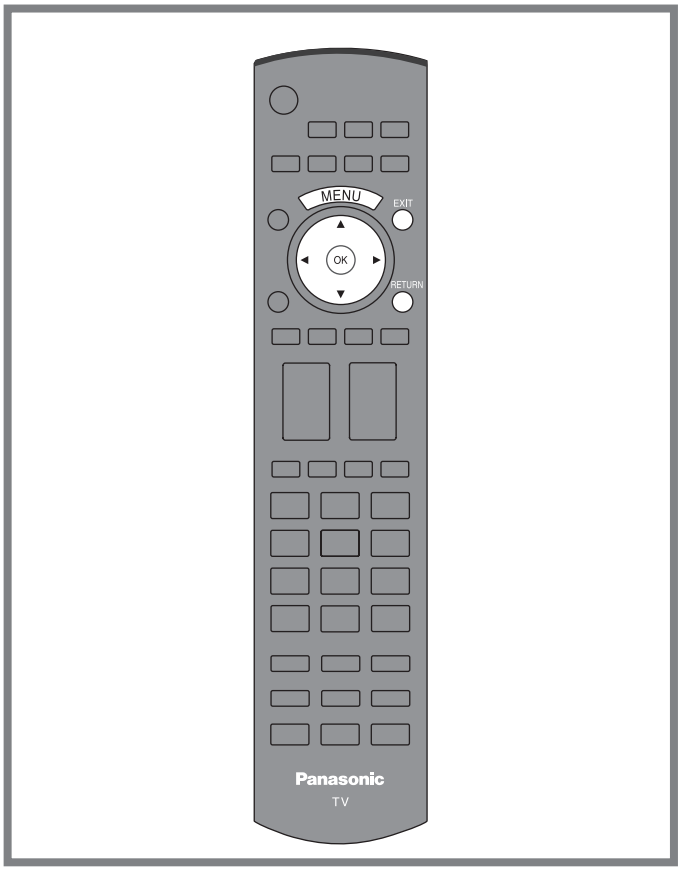

9. **After Auto program is complete, the unit will return to Manual program mode. To place the channels that were located by auto scan in memory, move the cursor to “Apply” and press OK. (p. 27-28)**
   If OK is not pressed after selecting APPLY, the channels will not be memorized.
10. **Press ▲▼ to select “Picture”.**
11. **Press OK to display the Picture menu. (p. 35)**

Notes

- After “Auto program” is completed the unit tunes to the first channel found during “Auto program”.
- If setup is incomplete, check connection of Antenna/Cable to the RF IN Terminal, then try “Auto program” again. (p. 26-27)
- “Auto program” must be done when you select the input signal for the first time or whenever you change the antenna configuration.
- Depending on conditions, “Auto program” may take a while.

Tuning channels

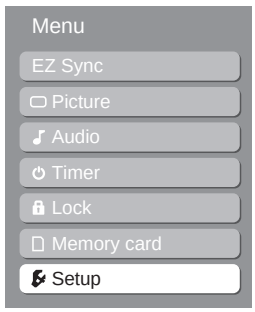

Switching languages for display

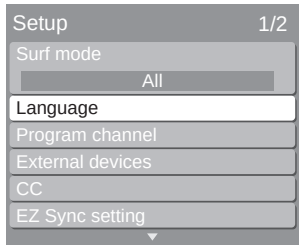

Allows you to select the language used for On-Screen Displays.

Procedure

1. **Press MENU to display the Main Menu screen.**
2. **Press ▲▼ to select “Setup” icon.**
3. **Press OK to display the Setup menu.**

4. **Press ▲▼ to select “Language”.**
5. **Press OK to display the Language menu.**

6. **Press ◄► to select “English,” “Español” or “Français”.**

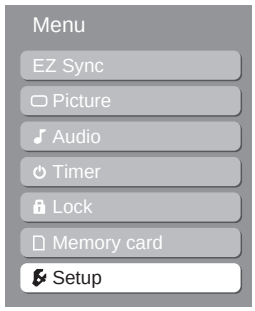

7. **Press RETURN to go to previous screen.**

Automatic program setting

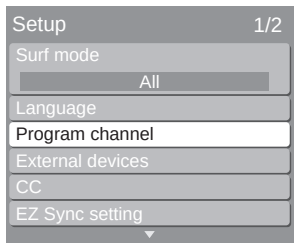

Automatically searches and adds receivable channels to memory.

Procedure

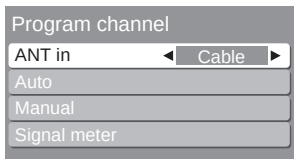

1. **Press MENU to display the Main Menu screen.**
2. **Press ▲▼ to select “Setup” icon.**
3. **Press OK to display the Setup menu.**

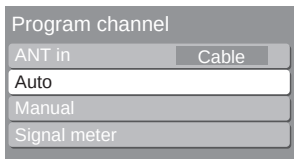

4. **Press ▲▼ to select “Program channel”.**
5. **Press OK to display the Program channel menu.**

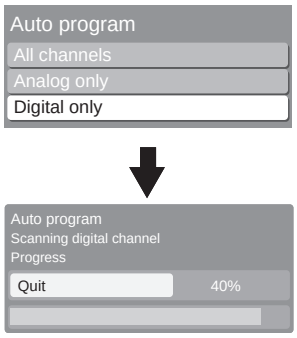

6. **Press ▲▼ to select “ANT in”.**
7. **Press ◄► to select “Antenna” or “Cable”.**

8. **Press ▲▼ to select “Auto”.**
9. **Press OK to display the Auto program menu.**

10. **Press ▲▼ to select “All channels”, “Analog only”, or “Digital only”.**
11. **Press OK to start scan.**

12. **After Auto program is complete, the unit will return to Manual program mode. To place the channels that were located by auto scan in memory, move the cursor to “Apply” and press OK. (p. 27-28)**
    If OK is not pressed after selecting APPLY, the channels will not be memorized.

Notes

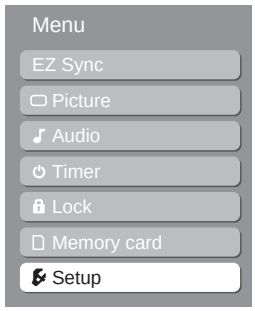

- Some channels with very weak signals may be locked into memory. If desired, these channels can be deleted manually using the “Manual program setting”. (p. 27-28)
- “Auto program” must be done when you select the input signal for the first time or whenever you change the antenna configuration.

Manual program setting

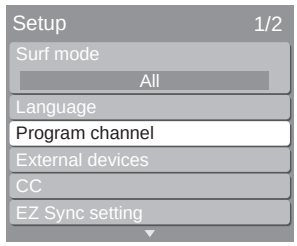

Use this procedure when changing setting of receiving channels or changing the channel display. Also, use to add or delete channels from channel list manually.

Procedure

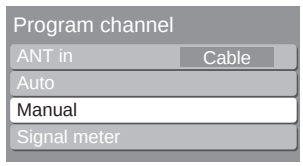

1. **Press MENU to display the Main Menu screen.**
2. **Press ▲▼ to select “Setup” icon.**
3. **Press OK to display the Setup menu.**

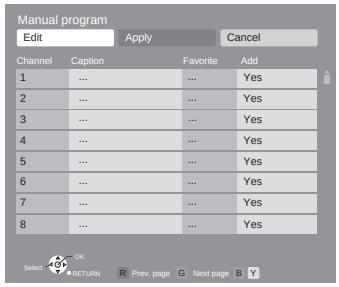

4. **Press ▲▼ to select “Program channel”.**
5. **Press OK to display the Program channel menu.**
   - If Lock (p. 41) has been set, you must enter your password to display the Program channel menu.

6. **Press ▲▼ to select “Manual”.**
7. **Press OK to enter the Manual program screen.**

8. **Press ◄► to select “Edit”.**
9. **Press OK to enter the edit mode.**

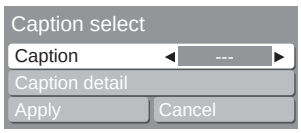

10. **Press ▲▼ to select the desired preset channel line.**
11. **Press ◄► to select edit area (“Channel,” “Caption,” “Favorite,” “Add”).**

■ **Edit (Caption)**

When a preset Caption has been entered.

1. **Press OK to display the Caption select menu.**
2. **Press ▲▼ to select “Caption”.**
3. **Press ◄► to select Broadcast station.**

4. **Press ▲▼ to select “Apply”.**
5. **Press OK to enter the Caption.**

When selecting a desired Caption manually.

1. **Press OK to display the Caption select menu.**
2. **Press ▲▼ to select “Caption detail”.**
3. **Press OK to display the Caption detail menu.**
4. **Press ▲▼ to select “Caption”.**
5. **Press OK to enter input field.**

6. **Press ▲▼ to select the character to input/change.**
7. **Press ◄► to move to the character to input/change.**
8. **Press OK to enter your selection.**
9. **Press ▲▼ to select “Apply”.**
10. **Press OK to enter the Caption.**

■ **Edit (Favorite)**

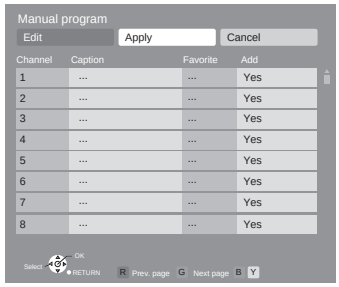

1. **Press OK to display the Set favorite menu. (p. 31)**

■ **Edit (Add)**

Setting of register/delete in Program channel.

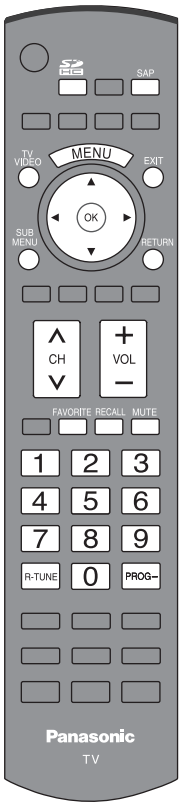

1. **Press OK to select “Yes” or “No”.**

12. **Press RETURN to move cursor to “Apply”.**

13. **Press OK to enter your program.**

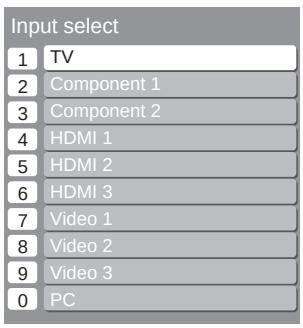

Projection Display Operation

Selecting Input Mode

Procedure

1. **Press TV/VIDEO to display the Input select menu.**
2. **Press corresponding NUMBER keys to select the input of your choice. Or, press ▲▼ to select the input of your choice, then press OK.**
   - If, during selection, no action is taken for several seconds, the Input selection menu is exited and the current input is automatically selected.

Component 1	Signal of source connected to COMPONENT VIDEO INPUT 1 is displayed.
Component 2	Signal of source connected to COMPONENT VIDEO INPUT 2 is displayed.
HDMI 1	Signal of source connected to HDMI IN 1 is displayed.
HDMI 2	Signal of source connected to HDMI IN 2 is displayed.
HDMI 3	Signal of source connected to HDMI IN 3 is displayed.
Video 1	Signal of source connected to VIDEO INPUT 1 is displayed. Signal of source connected to S VIDEO INPUT is displayed.
Video 2	Signal of source connected to VIDEO INPUT 2 is displayed.
Video 3	Signal of source connected to VIDEO INPUT 3 is displayed.
PC	Signal of source connected to PC IN is displayed.

Note

- If SKIP is set as the Input Label setting, the mode will not be changed. (p. 50)

■ Card input mode (Photo viewer) is selected.

Procedure

1. **Press SD to display Photo viewer mode.**

Photo (Photo viewer)	Signal of source connected to CARD SLOT is displayed.

Rapid Tuning

Switches between the current and last channel or input modes.

Procedure

1. **Press R-TUNE to switch to previously viewed channel or input modes.**

Note

- When Photo viewer (p. 46) is used, Rapid Tuning is not available.

Using the CH/VOL Button

■ Select desired channel:

Press CH ∧∨ or NUMBER keys.

■ Adjust to desired volume level:

Press VOL+ or VOL-.

Notes

- The channel number and volume level are stored even after the unit is turned off.
- Power consumption can be reduced if the volume level is lowered.

Channel and Program Tuning

Channel and Program tuning in digital television differs from conventional television. With DTV, many programs can exist within a single 6 MHz channel. These channels behave as sub-channels within a single channel. When tuning to a digital channel, the unit will also tune to a program and will indicate the channel and program in the on-screen Channel Banner display.
In order to select channels properly, Auto program must be performed. (p. 26-27)
Follow the procedure below to directly enter the channel number using the NUMBER keys.

Select analog channel

Procedure

1. Press the NUMBER keys to enter the Channel number. Press OK.

• The following is an example of tuning to channel 15.

Direct Tuning Example

Step	Action	Channel Banner Display
1	Press 1	1
2	Press 5	15
3	Press OK	15

Note

• If, during channel selection, no action is taken for several seconds, the Channel Banner is exited and the currently input channel is automatically selected.

Select digital channel

Procedure

1. If tuning a digital channel and your channel contains more than one program, press PROG- and enter the program (1, 2, 3 etc.) using the NUMBER keys. Press OK.

• The following is an example of tuning to channel 15-1.

Direct Tuning Example

Step	Action	Channel Banner Display
1	Press 1	1
2	Press 5	15
3	Press PROG-	15-
4	Press 1	15-1
5	Press OK	15-1

Note

• If, during channel selection, no action is taken for several seconds, the Channel Banner is exited and the currently input channel is automatically selected.

Unit Status Display

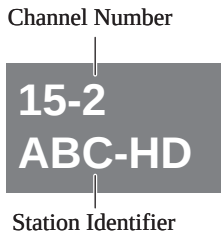

Press CH ∧∨ or RECALL, except when the MENU screen is displayed, to display current unit status information.

Channel Banner: Minimized

Procedure

1. Press CH ∧∨ to minimize the displayed channel banner.

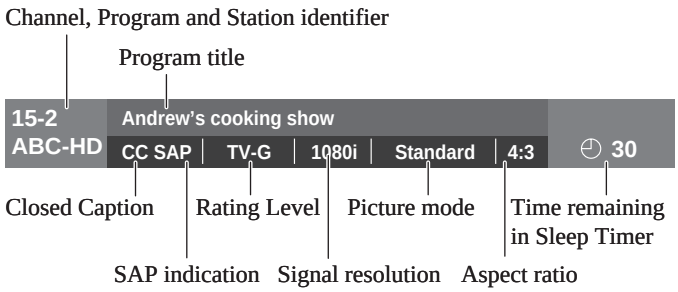

• It will display the channel number, and the station identification (if available).

Channel Banner: Maximized

Procedure

1. Press RECALL to maximize the displayed channel banner.

Audio Mute

Press MUTE to instantly mute the sound. Press again to restore the previous sound level.

Procedure

1. Press MUTE to mute the sound. Press again to reactivate sound.

• Sound is also reactivated when power is turned off or volume level is changed.

Note

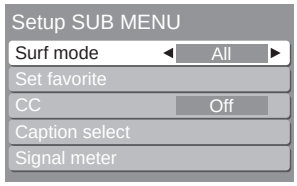

• The audio output from AV OUT is not muted.

Display the SUB MENU

This menu consists of shortcuts to convenient functions.

Procedure

1. Press SUB MENU to display the Setup SUB MENU.

Favorite Feature

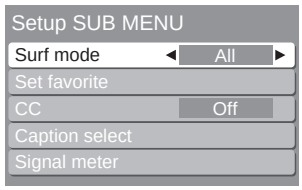

This feature lets you add channels to or delete channels from the Favorite channel list.

Set Favorite Feature

Procedure

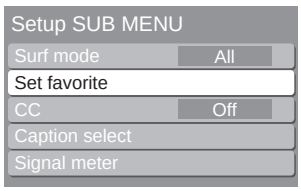

1. Display the channel to be placed on the Favorites list.

2. Press SUB MENU to display the Setup SUB MENU.

3. Press ▲▼ to select “Set favorite”.

4. Press OK to display the Set favorite menu.

5. Press FAVORITE repeatedly to change between pages (1/3, 2/3, 3/3, or exit). Pressing ◄► also changes the page.

6. Press ▲▼ to highlight a position on the list. Then, press OK to save the displayed channel in that position.

- You can also use the NUMBER keys (1-9 and 0) to select a list number (1-9 and 0). By doing so, the displayed channel will be saved on that list number without pressing OK.

■ To delete a favorite channel

A saved channel can be removed from the list by holding down OK while its position is highlighted or by pressing the NUMBER keys.

Use Favorite Feature

Procedure

1. Press FAVORITE.

- Press FAVORITE repeatedly to change between pages (1/3, 2/3, 3/3, or exit). Pressing ◄► also changes the page.

2. Press ▲▼ or a NUMBER keys (1-9 and 0) to highlight a channel on the list.

- Selecting a channel number from the list with the NUMBER keys will display the channel directly.

3. Press OK to display the highlighted channel.

Select Audio Mode for TV Viewing

Digital mode

Procedure

1. Press SAP to select the next audio track (if available) when receiving a digital channel.

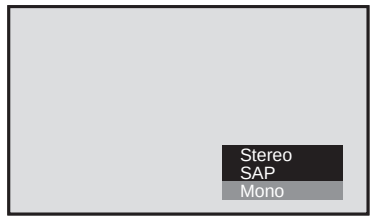

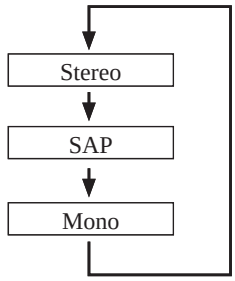

Analog mode

Procedure

1. Press SAP button to select the desired audio mode as described below. (Arrow shows selection.)

- Each press of SAP button will change the audio mode as shown below.

■ Receivable Broadcast Types

The following are possible broadcast types with their accompanying on-screen displays. The signal being received is indicated with a red text while the selected audio mode is a yellow background.

MTS Stereo and SAP broadcast

Multi-channel Television Sound Stereo (main language) and Secondary Audio Program (sub language) broadcasts are both being received simultaneously. Select the Stereo or SAP audio mode.

MTS Stereo broadcast

Multi-channel Television Sound Stereo broadcast. Select Stereo audio mode.

- If stereo broadcast is weak and the display flickers, select Mono audio mode for possibly better results.

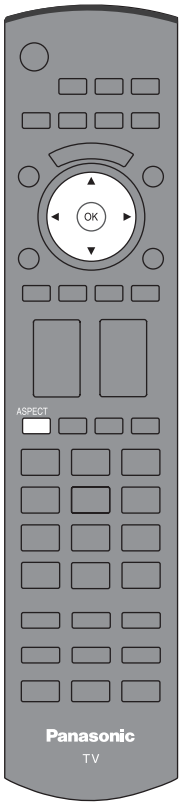

SAP broadcast

Secondary Audio Program (sub language.) Select SAP audio mode for the sub language.

Mono broadcast

Normal monaural sound broadcast.

ASPECT Controls

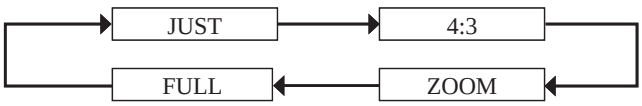

Changing the Aspect Mode

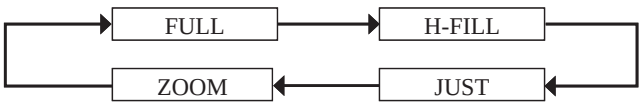

Lets you choose the aspect mode based on the format of the received signal and your preference.

Procedure

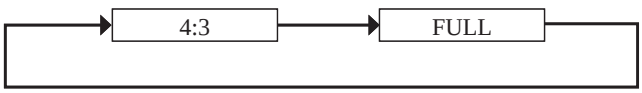

1. The aspect mode changes each time ASPECT is pressed.

- When an HD signal (1080p/1080i/720p) is received, the mode switches between FULL, H-FILL, JUST, and ZOOM.

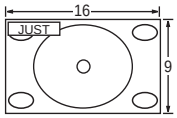

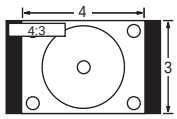

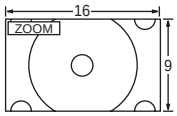

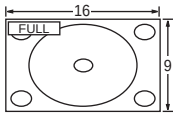

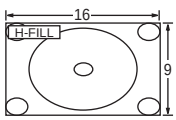

- During PC input, the mode switches between 4:3 and FULL only.

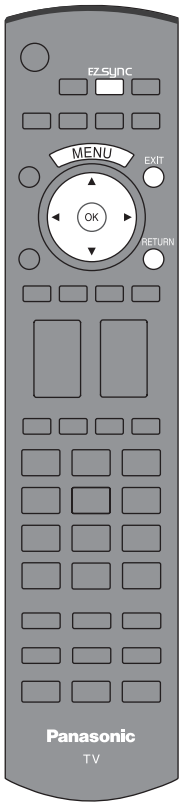

Notes

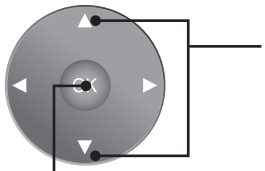

- When input mode is CARD, the aspect is set to 4:3 and cannot be changed.
- If the mode selected does not match the aspect ratio of the input signal, the original picture quality may be affected.
- If using this Projection Display in places, such as cafes or hotels, with the aim of displaying programs for a commercial purpose or for public presentation, please note that by using the aspect ratio (16:9) selection function to change the aspect ratio, you may be infringing on the rights of the original copyright owner of that program under copyright protection laws.
- If a 4:3 picture is projected in wide screen, distortion may occur around the edges so that part of the picture may no longer be visible. We recommend viewing in 4:3 mode so you can enjoy the picture as it was intended to be seen.

Mode	Picture	Explanation
JUST		JUST mode will display a 4:3 picture at maximum size, but with aspect correction applied to the center of the screen so that elongation is only apparent at the left and right edges of the screen. The size of the picture will depend on the original signal.
4:3		4:3 mode displays a 4:3 picture at the standard 4:3 size.
ZOOM		ZOOM mode magnifies the central section of the picture.
FULL		FULL mode displays the picture at maximum size, but with a slightly elongated appearance.
H-FILL		H-FILL mode enlarges a 4:3 image horizontally to the sides of the screen. The side edges of the image are cut off.

EZ Sync™ Feature

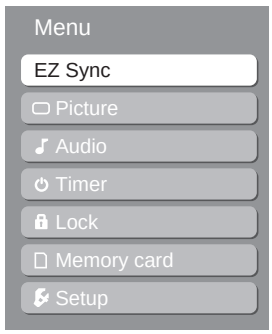

Press MENU to display the Main Menu screen.

Press to select “EZ Sync”.

Press to display the EZ Sync menu.

- **The EZ Sync may be set using the EZ Sync button.**
- While Main Menu (only) is displayed, pressing MENU will exit the menu screen.

■ **Return to previous level menu.**
Press RETURN to return to previous level menu.

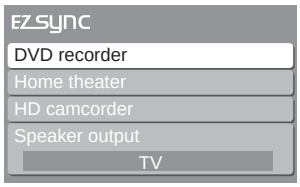

■ **Return to normal picture.**
Press EXIT to exit menu.

EZ Sync™

If you connect equipment that has the “HDAVI Control 2” function to the TV with HDMI cable, you can enjoy using this convenient function. For details, “EZ Sync Control” on pages 22 and 52-54.

Procedure

1. Press ▲▼ to select the equipment.

2. Press OK to operate the selected equipment with this Projection Display’s Remote Control.

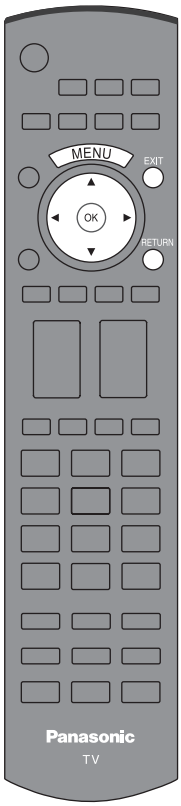

- Follow the menu of the equipment and enjoy watching.
- For the remote control operations, refer to page 54.

■ **Return to TV screen**
Press EXIT.

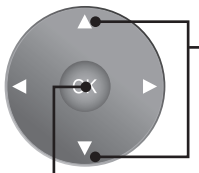

Note

- For details, see the equipment manual or ask your local dealer.

Picture Adjustments

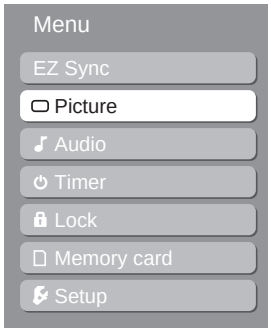

Press MENU to display the Main Menu screen.

Press to select “Picture” icon.

Press to display the Picture menu.

- While Main Menu (only) is displayed, pressing MENU will exit the menu screen.

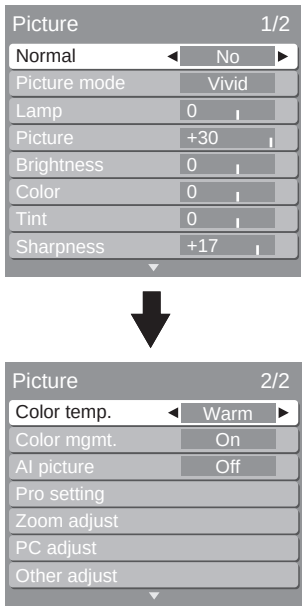

■ **Return to previous level menu.**
Press RETURN to return to previous level menu.

■ **Return to normal picture.**
Press EXIT to exit menu.

Normal / Lamp / Picture / Brightness / Color / Tint / Sharpness / Color temp. / Color mgmt. / AI picture

Procedure

1. **Press ▲▼ to select each item.**
2. **Press ◄► to adjust each item.**

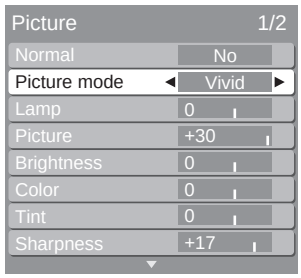

Item	Explanations
Normal	Resets all picture adjustments to factory default settings.
Lamp	Adjusts luminance of the lamp.
Picture	Adjusts white areas of picture.
Brightness	Adjusts dark areas of picture.
Color	Adjusts desired color intensity.
Tint	Adjusts natural flesh tones.
Sharpness	Adjusts clarity of outline detail.
Color temp. (Color temperature)	To increase or decrease Warm (red) and Cool (blue) colors to suit personal preferences.
Color mgmt. (Color management)	Enhances green and blue color reproduction, especially outdoor scenes.
AI picture	Controls dark areas without affecting the black level or brightness in the overall picture.

Picture Mode

Lets you choose one of four preset Picture Modes that best suits the program that you are viewing. Selecting this feature will also affect Color Temperature setting.

Procedure

1. **Press ▲▼ to select “Picture mode”.**
2. **Press ◄► to select picture mode.**

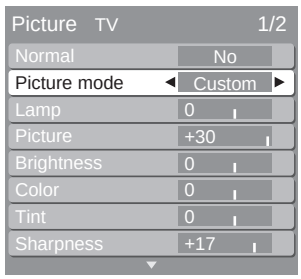

- Vivid (default) - Provides enhanced picture contrast and sharpness for viewing in a well-lit room.
- Standard - Recommended for normal viewing conditions with subdued room lighting.
- Cinema - For watching movies in a darkened room. It provides a soft, film-like picture.
- Custom (Photo) - Customizes each item according to your taste.
  Photo is displayed in JPEG menu.

Pro Setting

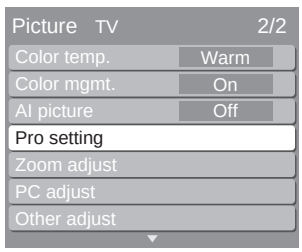

Highly-detailed adjustments can be made.

Procedure

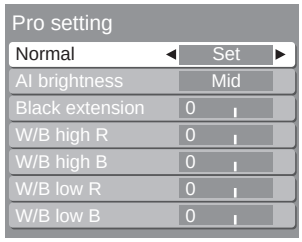

1. **Press ▲▼ to select “Picture mode”.**
2. **Press ◄► to select “Custom”.**

3. **Press ▲▼ to select “Pro setting”.**
4. **Press OK to display the Pro setting menu.**

5. **Press ▲▼ to select each item.**
6. **Press ◄► to adjust each item.**

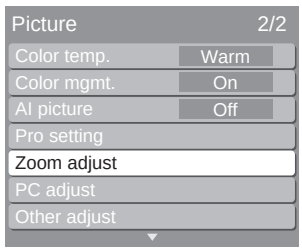

Item	Explanations
Normal	Resets all picture adjustments to factory default settings.
AI brightness	The median brightness level of the picture can be set.
Black extension	You can adjust the gray level of black for areas of the screen that are darker than the median level.
W/B high R	Adjusts the W/B high R (red).
W/B high B	Adjusts the W/B high B (blue).
W/B low R	Adjusts the W/B low R (red).
W/B low B	Adjusts the W/B low B (blue).

Zoom Adjust

Adjust the vertical image position and size.
It works when Aspect mode is Zoom.

Procedure

1. **Press ▲▼ to select “Zoom adjust”.**
2. **Press OK to display the Zoom adjust menu.**

3. **Press ▲▼ to adjust the vertical position.**
4. **Press ◄► to adjust the vertical size.**

Note

- Press OK to reset the aspect ratio.

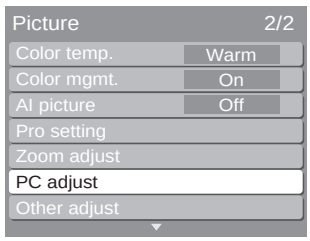

Depending on the signal being input, some menu items may or may not be adjustable and some functions may or may not be available.

PC Adjust

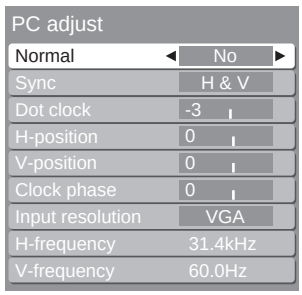

You can adjust the picture when “Input select” is selected to “PC”. (p. 29)

Procedure

1. **Press ▲▼ to select “PC adjust”.**
2. **Press OK to display the PC adjust menu.**

3. **Press ▲▼ to select each item.**
4. **Press ◄► to adjust each item.**

Item	Explanations
Normal	Resets all picture adjustments to factory default settings.
Sync	• H&V : The H and V sync signals are input from the HD/VD connector. • On G : Uses a synchronized signal on the Video G signal, which is input from the G connector.
Dot clock	Adjusts horizontal size.
H-Position	Adjusts horizontal position.
V-Position	Adjusts vertical position
Clock phase	Adjusts in order to remove any picture interference or contour blurring which may occur in computer images.
Input resolution	Switches to wide display. Input signal switched from XGA to WXGA and from VGA to WVGA.
H-Frequency/ V-Frequency	Displays the frequencies of the PC signal currently being adjusted. Displays the H (Horizontal) / V (Vertical) frequencies. Display range: Horizontal 15-110 kHz Vertical 48 - 120 Hz

Note

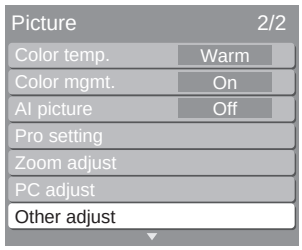

- This function is available only when the signal being viewed is from a PC.

Other Adjust

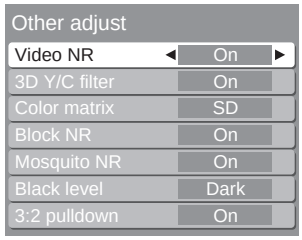

Other detailed picture adjustments can be made. This function is not available when “Input select” is selected to “PC”. (p. 29)

Procedure

1. **Press ▲▼ to select “Other adjust”.**
2. **Press OK to display the Other adjust menu.**

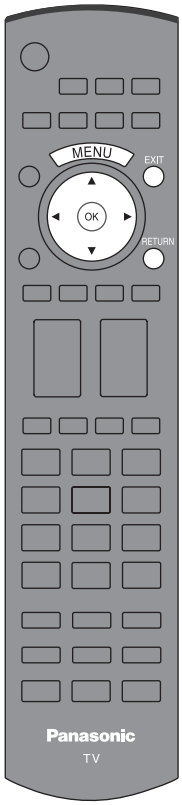

3. **Press ▲▼ to select each item.**
4. **Press ◄► to adjust each item.**

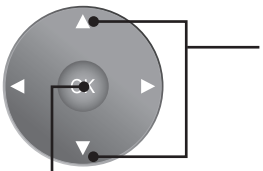

Item	Explanations
Video NR	Reduces noise, commonly called snow. Leave off when receiving a strong signal.
3D Y/C filter	Minimizes noise and cross-color in the picture.
Color matrix	Select SD or HD. • SD : Color matrix is set same as a normal TV system (NTSC). • HD : Color matrix is set same as a High-Definition system (ATSC). With a 480p signal from equipment connected to COMPONENT VIDEO INPUT (Y, PB, PR) or HDMI INPUT terminals or from the unit’s DTV tuner, you can select SD or HD color matrix to display the most natural color. **Notes** • This feature is available only with 480p signals. • The default setting with HDTV signals (720p, 1080i or 1080p) is HD color matrix. • The default setting with NTSC signals (480i) is SD color matrix.
Block NR	Reduces noise of specific digital signals of DVD, STB, etc.
Mosquito NR	Reduces HDTV flicker noise in the contoured sections of an image.
Black level	Select Light or Dark [Dark : VIDEO, Light : 480i/480p/720p/1080i/1080p] Invalid for Digital channel, Analog channel, PC and Photo viewer.
3:2 pulldown	Transfers film to video.

Audio Adjustments

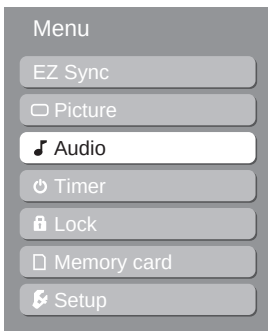

Press MENU to display the Main Menu screen.

Press to select “Audio” icon.

Press to display the Audio menu.

- While Main Menu (only) is displayed, pressing MENU will exit the menu screen.

■ **Return to previous level menu.**
Press RETURN to return to previous level menu.

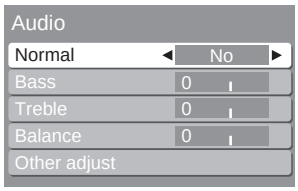

■ **Return to normal picture.**
Press EXIT to exit menu.

Normal / Bass / Treble / Balance

Procedure

1. Press ▲▼ to select each item.

2. Press ◄► to adjust each item.

Item	Explanations
Normal	Reset Bass, Treble and Balance adjustments to factory default settings.
Bass	Increase or decrease the bass response.
Treble	Increase or decrease the treble response.
Balance	Emphasize the left / right speaker volume.

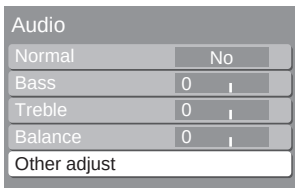

Other Adjust

Other detailed audio adjustments can be made.

Procedure

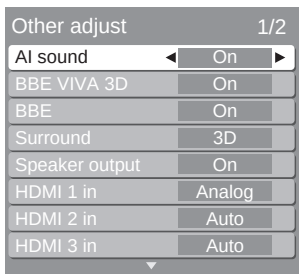

1. Press ▲▼ to select “Other adjust”.

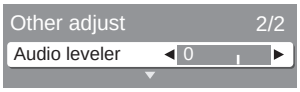

2. Press OK to display the Other adjust menu.

3. Press ▲▼ to select each item.

4. Press ◄► to adjust each item.

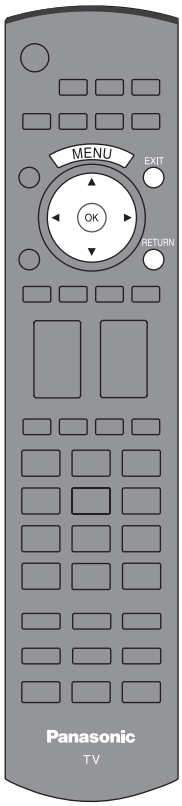

Depending on the signal being input, some menu items may or may not be adjustable and some functions may or may not be available.

Item	Explanations
AI sound	Equalize overall volume levels across all channels.
BBE VIVA 3D	BBE ViVA HD3D (High-Definition 3D) Sound provides musically accurate natural 3D image with Hi-Fi sound. The clarity of the sound is improved by BBE while the width, depth and height of sound image are expanded by BBE's proprietary 3D sound process. BBE ViVA HD3D Sound is compatible with all TV programs including news, music, dramas, movies, sports and electronic games.
BBE	BBE High-Definition Sound restores clarity and presence for better speech intelligibility and musical realism. • "BBE" is not available when "BBE VIVA 3D" is set to "On".
Surround	Enhances audio response when listening to stereo. • "Surround" is not available when "BBE VIVA 3D" is set to "On".
Speaker output	Switches to "Off" when using external speakers. • "AI sound", "Surround" and "Audio leveler" do not work if "Off" is selected.
HDMI 1 in/ HDMI 2 in/ HDMI 3 in	Perform input switching of analog audio input and digital audio input when using the HDMI terminal. Auto : Automatically performs digital/analog input switching according to the input signal type. Digital : Forces use of digital audio input signal transmitted via the HDMI terminal. Analog : Forces use of analog audio input signal transmitted via separate RCA terminals. • This item can be selected when viewing a signal from a HDMI.
Audio leveler	The audio leveler monitors the difference in audio levels between input signals from external equipment and minimizes the change in output volume that could occur when switching input signals.

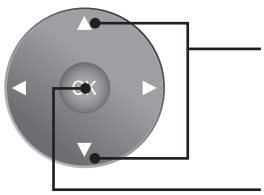

Notes

- "BBE VIVA 3D", "BBE", and "Audio leveler" do not work when "Speaker output" is set to "Off".
- Sound signals are output from the rear AUDIO OUT and DIGITAL AUDIO OUT terminal. (p. 21)
- When volume is adjusted or the MUTE button is pressed from the Remote Control, a message will be displayed.

Sleep Timer Feature

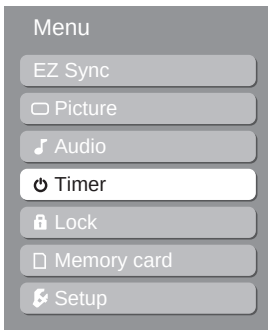

Press MENU to display the Main Menu screen.

Press to select “Timer” icon.

Press to display the Timer menu.

- While Main Menu (only) is displayed, pressing MENU will exit the menu screen.

■ **Return to previous level menu.**
Press RETURN to return to previous level menu.

■ **Return to normal picture.**
Press EXIT to exit menu.

Set Sleep Timer

Press to set unit to shut itself off after a preselected amount of time.

Procedure

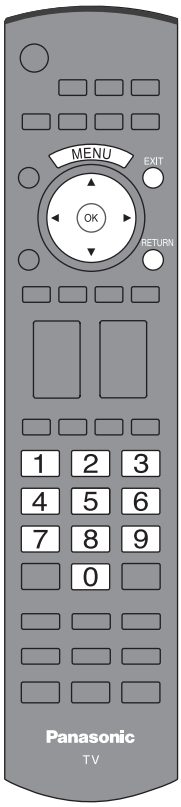

1. Press ◄► to select “0,” “30,” “60,” or “90”.

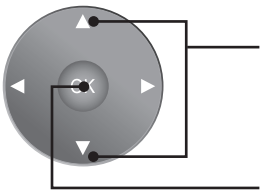

Notes

- Pressing the RECALL button with sleep timer set displays remaining time.
- The on-screen display will flash 3, 2 and 1 to indicate the last three (3) remaining minutes prior to turn off.

Lock Feature

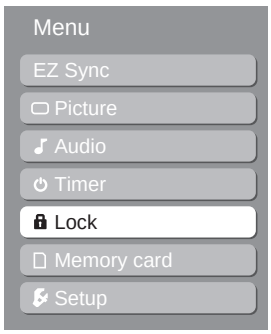

Press MENU to display the Main Menu screen.

Press to select “Lock” icon.

Press to display the options in the Lock menu.

- **You will be asked to enter your password each time you display the Lock menu.**
- While Main Menu (only) is displayed, pressing MENU will exit the menu screen.

■ **Return to previous level menu.**
Press RETURN to return to previous level menu.

■ **Return to normal picture.**
Press EXIT to exit menu.

This Projection Display incorporates V-CHIP technology to block the viewing of movies and television programs according to the rating category. There are four (4) Content Advisory Categories: MPAA (Motion Picture Association of America), TV Parental Guidelines Ratings, Canadian English Language Ratings and Canadian French Language Ratings. These categories are used as guidelines for blocking the programs. The default mode for the Lock category is the Unlocked state. In this state, you can surf the various categories of the Lock menu. After you have created a password, you are prompted to enter it before you can make any changes in the Lock menu.

- This Projection Display is designed to support the “Downloadable U.S. Region Rating System” when available. (Available only in U.S.A.)

Enter Password

A 4-digit password must be entered to view a blocked program or change rating settings.

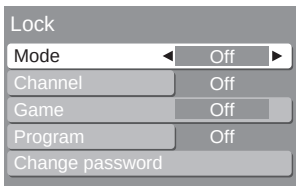

■ Create Password

Procedure

1. Press NUMBER keys to enter your password.

2. Upon entering the 4 digit password, the Lock menu is displayed.

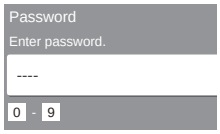

Note

- Use a password that is easy to remember and record it in a safe place.

■ Enter Password

Procedure

1. Press NUMBER keys to enter your password.

2. Upon entering the 4 digit password, the Lock menu is displayed.

Notes

- Once ratings are set, restricted tapes or programs cannot be accessed unless the secret password is entered.
- **Do not forget your password**. If you have forgotten it, please contact service center.

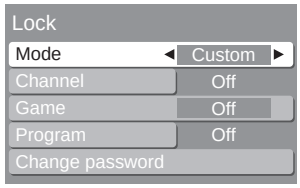

Lock Set

Select Lock mode to prevent viewing of video games, VCR tapes, channels and Video modes.

Procedure

1. Press ▲▼ to select “Mode”.

2. Press ◄► to select the desired setting.

To prevent video games, VCR tapes and all channels and video modes from being viewed. The available modes are:

- Off - Unlocks all the lock settings of “Channel”, “Game” and “Program”.
- All - Locks all the inputs regardless of the lock setting of “Channel”, “Game” and “Program”.
- Custom - Locks specified inputs of “Channel”, ”Game” and “Program”.

- “Channel”, ”Game” and “Program” will grey out unless “Custom” is selected in “Mode”.

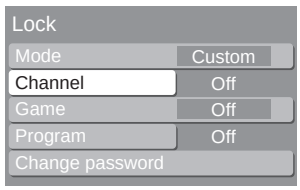

Channel Lock (Block channel selection)

Select up to 7 (1-7) channels to be blocked out. These channels will be blocked out regardless of the program rating.

Procedure

1. Press ▲▼ to select “Channel”.

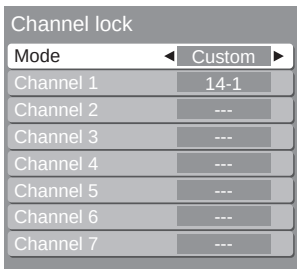

2. Press OK to display the Channel lock menu.

3. Press ▲▼ to select “Mode”.

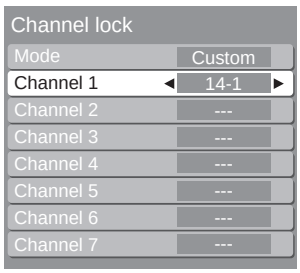

4. Press ◄► to select “Custom”.

- All - Locks all channels.
- Off - Unlocks all channels.

5. Press ▲▼ to select Channel 1 - 7.

6. Press ◄► to select the desired Block channel.

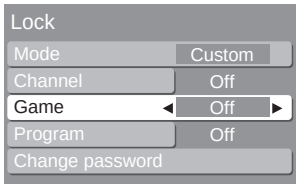

Game Lock

Locks Channel 3, Channel 4 and external inputs.

Procedure

1. **Press ▲▼ to select “Game”.**
2. **Press ◄► to select “On” or “Off”.**
   - On - Locks
   - Off - Unlocks

Block program

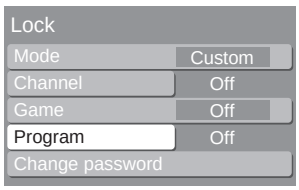

This television incorporates V-Chip technology to block the viewing of movies and television programs according to the rating category. There are four (4) Content Advisory Categories: MPAA (Motion Picture Association of America), U.S.TV Program, Canadian English ratings and Canadian French ratings. These categories are used as guidelines for blocking programs.

- The default mode for the Lock category is the Unlocked state.

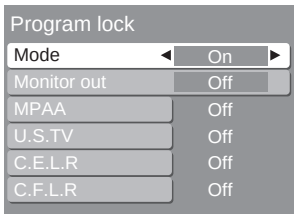

Rating level setting

Procedure

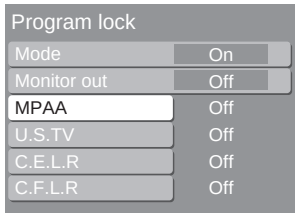

1. **Press ▲▼ to select “Program”.**
2. **Press OK to display the Program lock menu.**

3. **Press ▲▼ to select “Mode”.**
4. **Press ◄► to select “On”.**

5. **Press ▲▼ to select “MPAA”, “U.S.TV”, “C.E.L.R.” or “C.F.L.R.”.**
6. **Press OK to display the program lock menu.**
   - MPAA : for U.S movie ratings
   - U.S.TV : for U.S TV program ratings
   - C.E.L.R. : for Canadian English ratings
   - C.F.L.R. : for Canadian French ratings

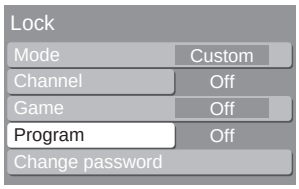

7. **Press ▲▼◄► to highlight the desired rating level.**

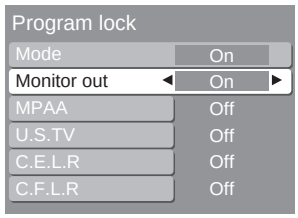

Monitor out setting

Procedure

1. **Press ▲▼ to select “Program”.**
2. **Press OK to display the Program lock menu.**

3. **Press ▲▼ to select “Monitor out”.**
4. **Press ◄► to select “On” or “Off”.**
   - On - Turns on the monitor terminal output for programs that have been set to “Blocked.”
   - Off - Turns off the monitor terminal output for programs that have been set to “Blocked.”

Notes

- The Off rating is independent of other ratings.
- When placing a block on a specific age based rating level, the Off rating and any other more restrictive ratings will also be blocked.

U.S. MOVIES RATINGS CHART (MPAA)

Off	NO RATING (NOT RATED) AND NA (NOT APPLICABLE) PROGRAMS. Movie has not been rated or rating does not apply.
G	GENERAL AUDIENCES. All ages admitted.
PG	PARENTAL GUIDANCE SUGGESTED. Some material may not be suitable for children.
PG-13	PARENTS STRONGLY CAUTIONED. Some material may be inappropriate for children under 13.
R	RESTRICTED. Under 17 requires accompanying parent or adult guardian.
NC-17	NO ONE 17 AND UNDER ADMITTED.
X	ADULTS ONLY.

U.S. TV PROGRAMS RATINGS CHART

The TV Parental Guidelines has 7 levels of age-based ratings that can be selected. These 7 levels are split into 2 age-based groups:
Youth Age-based Ratings and Guidance Age-based Ratings. Some of these age-based ratings can also have content-based ratings, denoted as D (Dialog), L (Language), S (Sex) and V (Violence). The table below shows the age-based ratings selection.

Age-based Group	Age-based Ratings	Blocked Content Selections	Description
NR (Not Rated)	TV-NR	• Viewable • Blocked	Not Rated. See “Customer Caution” on page 45.
Youth	TV-Y	• Viewable • Blocked	All children. The themes and elements in this program are specifically designed for a very young audience, including children from ages 2-6.
	TV-Y7	• FV (Fantasy Violence) • Viewable • Blocked	Directed to older children. Themes and elements in this program may include mild physical or comedic violence, or may frighten children under the age of 7.
Guidance	TV-G	• Viewable • Blocked	General audience. It contains little or no violence, no strong language, and little or no sexual dialogue or situations.
	TV-PG	• D,L,S,V (all selected) • Any combination of D, L, S, V	Parental guidance suggested. The program may contain infrequent coarse language, limited violence, some suggestive sexual dialogue and situations.
	TV-14	• D,L,S,V (all selected) • Any combination of D, L, S, V	Parents strongly cautioned. This program may contain sophisticated themes, sexual content, strong language and more intense violence.
	TV-MA	• L,S,V (all selected) • Any combination of L, S, V	Mature audiences only. This program may contain mature themes, profane language, graphic violence, and explicit sexual content.

FV : Fantasy/Cartoon Violence.
V : Violence
S : Sex
L : Offensive Language
D : Dialogue with sexual content.

CANADIAN ENGLISH RATINGS CHART

E	Exempt - Exempt programming includes: news, sports, documentaries and other information programming, talk shows, music videos, and variety programming.
C	Programming intended for children under age 8. No offensive language, nudity or sexual content.
C8+	Programming generally considered acceptable for children 8 years and over. No profanity, nudity or sexual content.
G	General programming, suitable for all audiences.
PG	Parental Guidance suggested. Some material may not be suitable for children.
14+	Programming contains themes or content which may not be suitable for viewers under the age of 14. Parents are strongly cautioned to exercise discretion in permitting viewing by pre-teens and early teens.
18+	18+ years old. Programming restricted to adults. Contains constant violence or scenes of extreme violence.

CANADIAN FRENCH RATINGS CHART

E	Exempt - Exempt programming.
G	General - Programming intended for audience of all ages. Contains no violence, or the violence content is minimal or is depicted appropriately.
8 ans +	8+ General - Not recommended for young children. Programming intended for a broad audience but contains light or occasional violence. Adult supervision recommended.
13 ans +	Programming may not be suitable for children under the age of 13 - Contains either a few violent scenes or one or more sufficiently violent scenes to affect them. Adult supervision strongly suggested.
16 ans +	Programming may not be suitable for children under the age of 16 - Contains frequent scenes of violence or intense violence.
18 ans +	Programming restricted to adults. Contains constant violence or scenes of extreme violence.

Customer Caution

The V-Chip system that is used in this set is capable of blocking "NR" programs (non rated, not applicable and none) as per FCC Rules Section15.120(e)(2). If the option of blocking "NR" programs is chosen "unexpected and possibly confusing results may occur, and you may not receive emergency bulletins or any of the following types of programming:"

- Emergency Bulletins (Such as EAS messages, weather warnings and others)
- Locally originated programming • News • Political • Public Service Announcements • Religious • Sports
- Weather

Blocking Messages

Various Blocking messages are displayed on-screen depending upon the type of blocking you have selected in the Lock menu.

Note

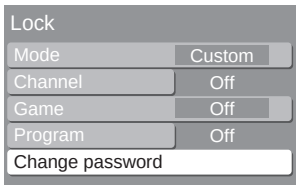

- Entering the password will override the block condition. However, the ratings selection will be retained.

Message	Possible cause
Game locked.	The TV/VIDEO button was pressed when the Game lock had been selected.
Channel Locked.	Tuned to the designated channel when the Channel lock had been selected.
All locked.	Tuned to CH 3 or CH 4 when the Game lock had been selected. Lock all is selected.
Program locked.	Received program that exceeds the Block Program rating level.

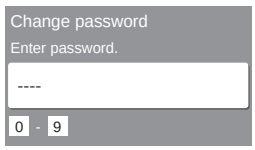

Change password

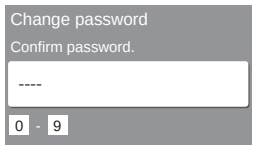

Procedure

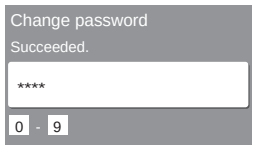

1. **Press ▲▼ to select "Change password".**
2. **Press OK to display the Input Password screen.**

3. **Press the NUMBER keys to change a 4-digit password to enter the Lock menu. Enter a 4-digit password.**

Notes

- Use a password that is easy to remember and record it in a safe place.
- **Do not forget your password**. If you have forgotten it, please contact service center.

Viewing from SD Card

Still image data (JPEG) made with a digital camera or digital video camera can be played back using an SD Card.

⚠ WARNING

As with any small objects, SD cards can be swallowed by young children. Do not allow children to handle the SD card.

⚠ CAUTION

1. Always insert card in the correct direction. Failure to do so may result in damage to the card and this unit.
2. The SD Card is precision devices. Do not subject them to excessive pressure or strong impacts.

Cautions in handling SD Card:

- Do not remove the card while the unit is accessing data (this can damage card or unit).
- Do not touch the terminals on the back of the card.
- Do not subject the card to a high pressure or impact.
- Insert the card in the correct direction (otherwise, card may be damaged).
- Electrical interference, static electricity, or erroneous operation may damage the data or card.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the unit. (Panasonic is not liable for any deterioration or damage of recorded data.)

■ Data Format for Card Browsing

Photo:	Still images recorded with digital still cameras compatible with JPEG files of DCF* and EXIF** standards
Data format:	Baseline JPEG (Sub-sampling: 4:4:4, 4:2:2 or 4:2:0)
Max. number of files:	9,999
Image resolution:	160 × 120 to 10,000,000

* DCF (Design rule for camera file system): A Japan Electronics and Information Technology Industries Association's standard

** EXIF (Exchangeable Image File Format)

Notes

- Some parts of an image may not be displayed, or the image may be displayed on a smaller scale depending on the size of the image.
- Only JPEG images can be displayed on this unit.
- A JPEG image modified with a PC may not be displayed.

Insert/Remove the Card

⚠ CAUTION

Do not remove the SD card while "Accessing" is being displayed on screen. Otherwise, data may be lost or corrupted.

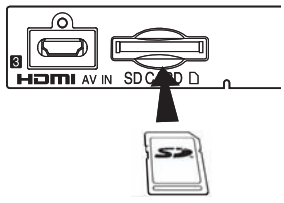

Notes

- Compliant card type (maximum capacity): SDHC Card (4 GB), SD Card (2 GB), mini SD Card (1 GB) (requiring mini SD Card adapter).
- Remove the Card carefully to prevent it from popping out of the slot too fast.

Insert the Card

With the SD logo facing upward, insert the Card horizontally into the SD Card Slot. The card is secured when you hear a click.

Front Card Slot (p. 10)

SD Card

Remove the Card

Gently press in on the Card and release slowly. Pull the Card from the slot.

Front Card Slot (p. 10)

Press in lightly on SD Card, then release.

Card Warning Messages

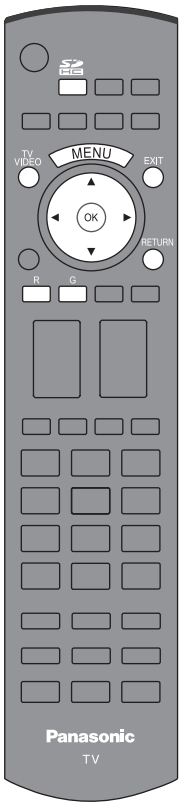

If there is a problem with the card or card data, the following messages will appear.

■ SD Card warning messages

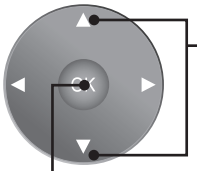

Message	Description
Is memory card in?	• The card is not inserted.
No file	• The card has no data, or this type of data is not supported.
Cannot read file	• The file is broken or unreadable. • This Projection Display does not support the format.

■ GalleryPlayer warning messages (p. 48)

Message	Description
Cannot display image due to incorrect ID data.	• There is a problem with the unit decoder. • If this message appears, please contact Panasonic Service Center for assistance. Refer to page 64 (Customer Services Directory (for U.S.A.)), page 65 or 66 (Limited Warranty (for U.S.A. or for Canada))
Cannot display image on SD card.	• There is a problem with the data. Check the data on the SD card.

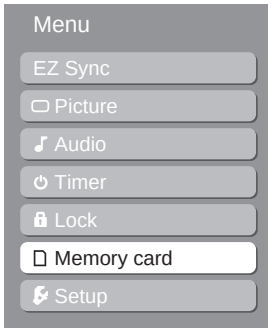

Press MENU to display the Main Menu screen.

Press to select “Memory card” icon.

Press to display the Photo viewer.

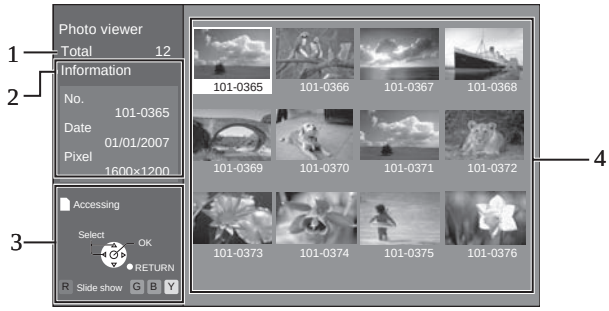

- **The SD button may also be pressed for Photo viewer mode. (p. 29)**
- While Main Menu (only) is displayed, pressing MENU will exit the menu screen.

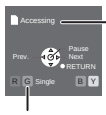

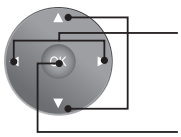

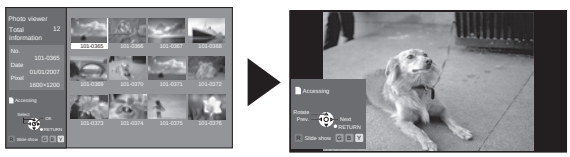

■ **Return to previous level menu.**
Press RETURN to return to previous level menu.

■ **Return to normal picture.**
Press EXIT to exit menu.

Photo viewer Mode

The screen below is displayed automatically while a card is inserted.

1	**Total** Total number of images.
2	**Information** Selected picture information is displayed. **No. :** Image number or file name is displayed. **Date :** Date of recording is displayed. **Pixel :** Display resolution is displayed. **Note** • Depending on the JPEG format, “Info” contents may not be displayed correctly. Refer to page 46 (Data format for SD card browsing) for details.
3	**Navigation Area** ■ **Single Play Mode**  Present status While reading the data. Press the R button : to Slide Show Mode ■ **Slide Show Mode**  Present status While reading the data. Press the G button : to Single Play Mode
4	**Index Area**  Press to select file. Press to display full size file preview. (See Next Page.) 

■ **Exit Photo viewer**
Press EXIT.

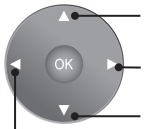

■ **Return to the previous screen**
Press RETURN.

Single Play Mode

Displays one at a time

Navigation Area

Rotate 90 degrees (counter-clockwise).

The next image is displayed.

Rotate 90 degrees (clockwise).

The previous image is displayed.

■ Display/hide Navigation area

Press RECALL.

To Watch Photos in Slide Show Mode

Procedure

1. Press R to start Slide Show in Photo viewer mode or Single Play mode.

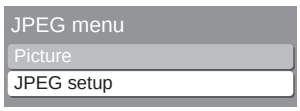

Notes

- For large image sizes, the display time will be longer than the number of seconds set.
- To stop in mid-cycle → Press RETURN.
- To stop a slide show → Press OK.

■ Slide Show Setting

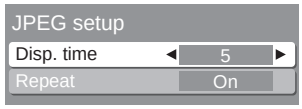

Procedure

1. Press MENU to display the JPEG menu.

2. Press ▲▼ to select “JPEG setup”.

3. Press OK to display the JPEG setup menu.

4. Press ▲▼ to select each item.

5. Press ◄► to set each item.

Disp. time	You can set how many seconds each image is displayed in Slide mode.
Repeat	Turn the slide show Repeat function On or Off.

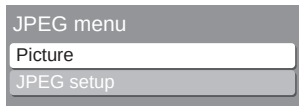

To Adjust Picture

When MENU is pressed in Photo viewer mode or Single Play mode, the JPEG menu is displayed.

Procedure

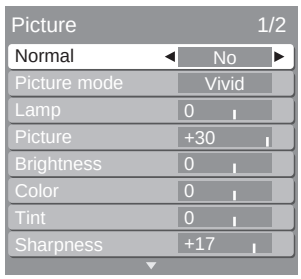

1. Press ▲▼ to select “Picture”.

2. Press OK to display the Picture menu.

3. Press ▲▼ to select each item.

4. Press ◄► to set each item.

Picture menu (p. 35)

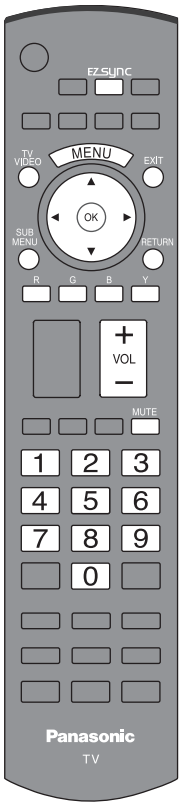

Viewing from a GalleryPlayer SD Card

You can view high-definition art and photography purchased on or downloaded to an SD card. GalleryPlayer provides pre-loaded SD cards with copy-protected imagery and images for download to your computer that can be saved on an SD card for display on your television.

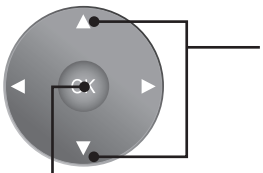

Visit www.GalleryPlayer.com <http://www.galleryplayer.com/> for more info.

GalleryPlayer images are available for a fee from GalleryPlayer, Inc.

Setup Features

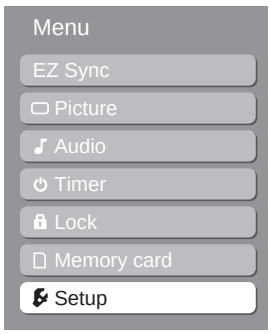

Press MENU to display the Main Menu screen.

Press to select “Setup” icon.

Press to display the Setup menu.

- While Main Menu (only) is displayed, pressing MENU will exit the menu screen.

■ **Return to previous level menu.**
Press RETURN to return to previous level menu.

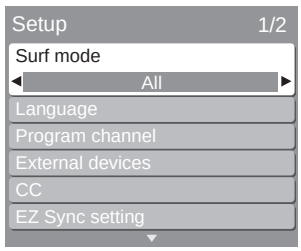

■ **Return to normal picture.**
Press EXIT to exit menu.

Surf Mode

You may choose the way in which channels are selected with ▲▼.

Procedure

1. **Press ▲▼ to select “Surf mode”.**
2. **Press ◄► to select “Favorite” or “All”.**
   - Favorite - ◄► only displays programs on the Favorite CH list.
   - All - ◄► selects all channels memorized with Auto Program.

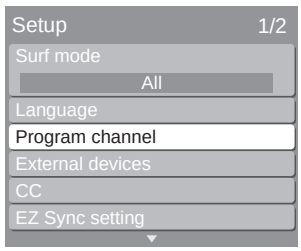

Signal Meter

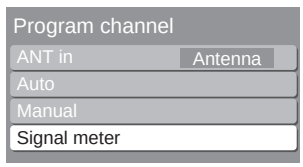

Allows you to confirm the signal strength of a desired channel.

Procedure

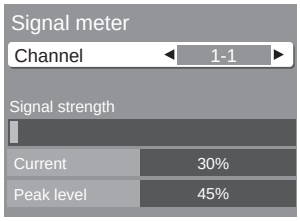

1. **Press ▲▼ to select “Program channel”.**
2. **Press OK to display the Program channel menu.**
   - If Lock (p. 41) has been set, you must enter your password to display the Program channel menu.

3. **Press ▲▼ to select “Signal meter”.**
4. **Press OK to display the Signal meter menu.**

5. Press ◄► to select desired channel.

Note

- The signal meter works only for digital signals input via the antenna.

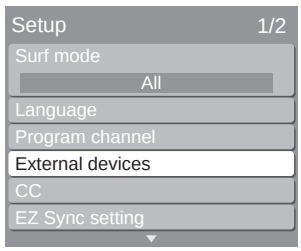

Input labels

To label video input connections for on-screen display.

Procedure

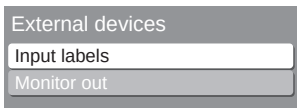

1. Press ▲▼ to select “External devices”.

2. Press OK to display the External devices menu.

3. Press ▲▼ to select “Input labels”.

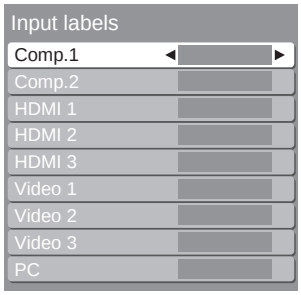

4. Press OK to display the Input labels menu.

5. Press ▲▼ to select each item.

6. Press ◄► to select the input label.

- To skip the input, select “SKIP”. The input will be skipped when you press TV/VIDEO.
- Selectable input labels : SKIP, VCR, DVD, CABLE, DBS, PVR, GAME, AUX, blank (non label).

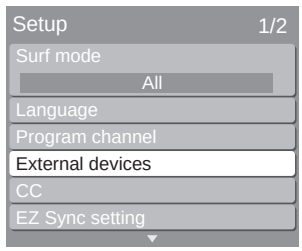

Monitor out

When connecting external equipment to this unit - Stops output of the picture and sound signals at the AV OUT jacks for the input source selected in this menu to avoid signal loop.

Procedure

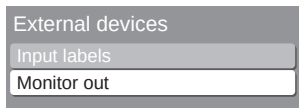

1. Press ▲▼ to select “External devices”.

2. Press OK to display the External devices menu.

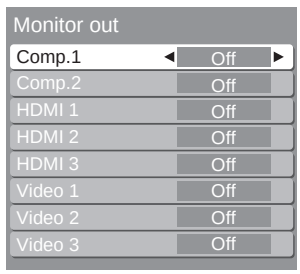

3. Press ▲▼ to select “Monitor out”.

4. Press OK to display the Monitor out menu.

5. Press ▲▼ to select each item.

6. Press ◄► to select “On” or “Off”.

Notes

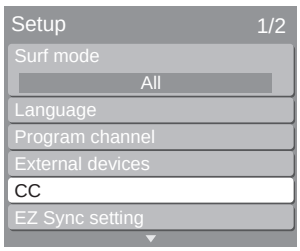

- Select “Off” to stop output of picture and audio. (Video 1/Video 2/Video 3)
- Comp.1 / Comp.2 / HDMI 1 / HDMI 2 / HDMI 3 cannot output video signals regardless of “Monitor out” setting. When equipment (STB, DVD, etc.) is connected to HDMI or COMPONENT terminals, only audio signals can be obtained. From the output terminals, no video signals can be passed.

CC (Closed Caption)

The television includes a built-in decoder that is capable of providing a visual display of the audio portion. The program viewed must provide Closed Caption (CC) for the television to display it.

Procedure

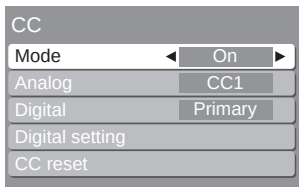

1. **Press ▲▼ to select “CC”.**
2. **Press OK to display the CC (Closed Caption) menu.**

CC Mode

Procedure

1. **Press ▲▼ to select “Mode”.**
2. **Press ◄► to select “On” or “Off”.**
   - Off - Recommended mode when Closed Caption is not being used.
   - On - To display Closed Captions.

Notes

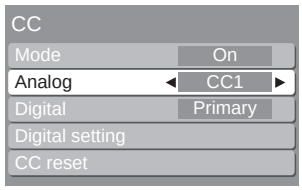

- The Closed Caption is not displayed when you use HDMI connection.
- If analog connected equipment is used for displaying or recording, Closed Caption (CC) should be set On/Off on the connected equipment.
  The CC mode setting of the TV will not affect the analog input.
  If a digital program is being output in analog format, the CC data will also be output in analog format.
  If digital connected equipment is used for input, CC should be set “On” on either the connected equipment or the TV.
  If CC is set “On” on both the connected equipment and the TV, captions from each unit will overlap.

CC Mode for Analog

Choose the Closed Caption service of Analog broadcasting.

Procedure

1. **Press ▲▼ to select “Analog”.**
2. **Press ◄► to select the setting.**

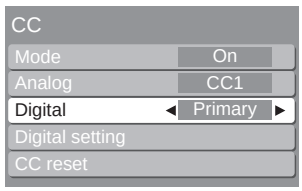

CC1	For video related information that can be displayed (up to 4 lines of script on the screen, where it does not disturb the relevant parts of the picture). Script can be in any language.
CC2/CC3/CC4	Other modes used for video related information.
T1	Blanks out a large portion of the picture on the television screen, and displays program guide or any other information currently being transmitted.
T2/T3/T4	Other modes that display information and blank out a large portion of the picture of the TV screen.

CC Mode for Digital

The Digital Closed Caption menu lets you configure the way you choose to view the digital captioning.

Procedure

1. **Press ▲▼ to select “Digital”.**
2. **Press ◄► to select the setting.**
   - Primary, Second., Service 3, Service 4, Service 5, Service 6

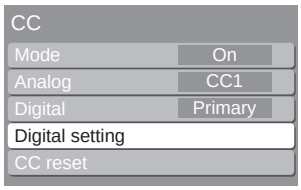

Digital settings

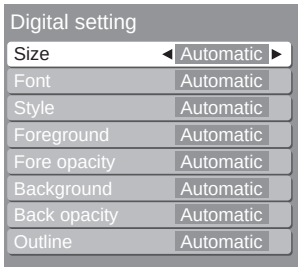

Selecting digital broadcast service and viewing formats.

Procedure

1. **Press ▲▼ to select “Digital setting”.**
2. **Press OK to display the Digital setting menu.**

3. **Press ▲▼ to select each item.**
4. **Press ◄► to select the setting.**

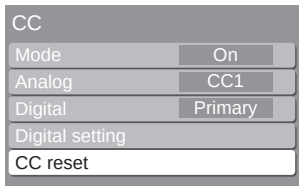

Size	Automatic, Normal, Small, Large
Font	Automatic, Default, Mono-serif, Prop-serif, Mono, Prop, Casual, Cursive, Small caps
Style	Automatic, None, Raised, Depressed, Uniform, Drop shadow
Foreground	The color of the font (Automatic, Black, White, Red, Green, Blue, Yellow, Magenta, Cyan)
Fore opacity	The opacity of the font (Automatic, Transparent, Translucent, Solid, Flashing)
Background	The color of the text box (Automatic, Black, White, Red, Green, Blue, Yellow, Magenta, Cyan)
Back opacity	The opacity of the text box (Automatic, Transparent, Translucent, Solid, Flashing)
Outline	The outline of the text (if selected under style) (Automatic, Black, White, Red, Green, Blue, Yellow, Magenta, Cyan)

CC Reset

Reset the CC settings.

Procedure

1. **Press ▲▼ to select “CC reset”.**
2. **Press OK to reset Closed Caption settings.**

EZ Sync™ “HDAVI Control™”*

* Simultaneously control all Panasonic “HDAVI Control” equipped components using one button on one remote.

Enjoy additional HDMI Inter-Operability with Panasonic products which have “HDAVI Control” function.
This Projection Display supports “HDAVI Control 2” function.
Connections to some Panasonic equipment (DVD Recorder DIGA, HD Camcorder, RAM theater, Player theater, Amplifier, etc.) with HDMI cables allow you to interface automatically.
The equipment with “HDAVI Control” function enables the following operations:
Automatic Input Switching, Power on link, Power off link and Speaker control (p. 53-54)
In addition, the equipment with “HDAVI Control 2” function enables the following operation:
EZ Sync Control only with this Projection Display’s remote control (for “HDAVI Control 2”). (p. 54)
EZ Sync “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.

- **For the first time / When adding new equipment, reconnecting the equipment or changing the setup. After the connection turn the equipment on and then switch this Projection Display on.**
  Select the input mode to HDMI 1, HDMI 2, or HDMI 3 (p. 29), and make sure that an image is displayed correctly.
- This function needs an HDMI compliant (fully wired) cable. Non-HDMI-compliant cables cannot be utilized. It is recommended that you use Panasonic’s HDMI cable. Recommended part number: RP-CDHG15 (1.5 m), RP-CDHG30 (3.0 m), RP-CDHG50 (5.0 m)

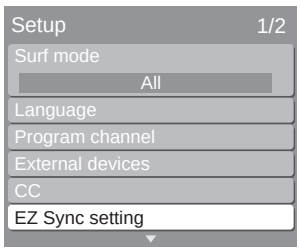

HDMI connections to some Panasonic equipment allow you to interface automatically.

- This function may not work normally depending on the equipment condition.
- The equipment can be operated by other equipment's remote controls with this function on even if this Projection Display is in Standby mode.
- Image or sound may not be available for the first few seconds when the playback starts.
- Image or sound may not be available for the first few seconds when Input mode is switched.
- Volume function will be displayed when adjusting the volume of the equipment.
- If you connect the same kind of equipment at once (for example: one DIGA to HDMI 1 / another DIGA to HDMI 2), EZ Sync™ is available for the terminal with the smaller number.
- If you connect the equipment that has "HDAVI Control 2" function to the TV with HDMI cable, the sound from DIGITAL AUDIO OUT terminal can be output as multi-channel surround.

Procedure

1. Press ▲▼ to select "EZ Sync setting".

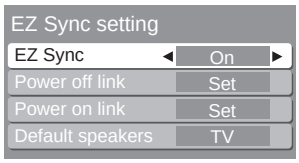

2. Press OK to display the EZ Sync setting menu.

3. Press ▲▼ to select "EZ Sync".

4. Press ◄► to select "On".

- Default setting is "On". If no HDMI devices are connected or standard HDMI (without "EZ Sync") is used, set to "Off".

5. Press ▲▼ to select each item.

6. Press ◄► to select the setting.

Item	Explanations
EZ Sync	Controls equipment connected to HDMI terminal. (p. 52-53) • "Power off link", "Power on link", and "Default speakers" cannot be selected if "Off" is set.
Power off link	When "Set" is selected and this Projection Display is turned off, all connected EZ Sync compatible equipment is also automatically turned off. • DIGA (Panasonic DVD Recorder) will not turn off if it is still in rec mode. **Caution:** • This Projection Display remains on even if the EZ Sync compatible equipment is turned off.
Power on link	When "Set" is selected, this Projection Display is turned on automatically and switches to the appropriate HDMI input whenever EZ Sync compatible equipment is initially turned on and Play mode is selected. • While the power lamp is blinking, the picture cannot be seen. • Power on link will not work until lamp cooling is completed when power is turned off.
Default speakers	"TV" is the default setting. To set the Home theater system as default speakers, change the default speakers setting from "TV" to "Theater". Sound will be output from the Home Theater whenever this Projection Display is powered on.

Automatic Input Switching

At the start of the DIGA, Player theater, or RAM theater playback, this Projection Display's input automatically switches to the input based on the playback equipment.

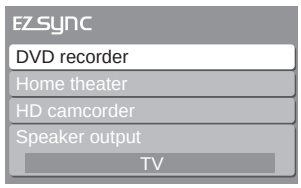

- For the RAM theater, the speakers automatically switch to the theater system.
  If using the DIGA operation, this Projection Display's input automatically switches to the DIGA and DIGA menu is displayed.

Speaker control

You can select Home theater, or TV speakers for audio output.
Control theater speakers with this Projection Display's remote control.
This function is available only when Panasonic Amplifier or Player theater is connected.

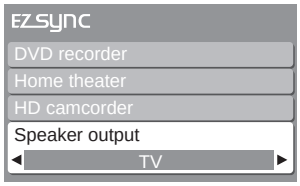

Procedure

1. Press EZ Sync to display the EZ Sync menu.

2. Press ▲▼ to select “Speaker output”.

3. Press ◄► to select “TV” or “Home theater”.

■ Home theater:

Adjustment for equipment.

- Press VOL +/- for desired volume level. Press MUTE to mute the sound.

Notes

- The sound of TV is muted.
- When the equipment is turned off, TV speakers become active.
- Selecting “Home theater” turns the equipment on automatically if it is in standby mode.

■ TV:

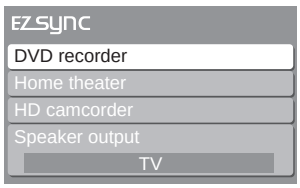

The TV speakers are active.

EZ Sync Control (Only for HDAVI Control 2 compatible DVD recorder, Home theater, and HD camcorder models)

In the EZ Sync menu, you can select an HDMI connected Panasonic equipment and access it quickly. Continue using this Projection Display’s remote control to operate the equipment, pointing it at the Projection Display.

Procedure

1. Press EZ Sync to display the EZ Sync menu.

2. Press ▲▼ to select the equipment.

- You can select available items only.

3. Press OK to access the selected equipment.

4. Operate the equipment with this Projection Display’s remote control, pointing it at the Projection Display.

- To operate the equipment, read the manual for the equipment.

■ Available this Projection Display’s remote control buttons

	Move the cursor/Select
	Set/Access
	Return to the previous menu
	Display the Functions menu on the equipment
	Available when the purpose of the keys are displayed

One-touch theater playback

If the “ONE TOUCH PLAY” key is pressed on the remote control for Panasonic Home Theater system, the following sequence of operations is performed automatically.

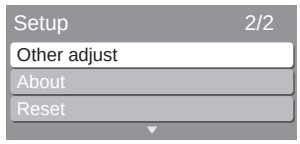

1. Home Theater power switches On, and playback begins.
2. TV power switches On, and the playback screen is displayed.
3. Audio is muted on the TV and switches to the theater system.

Other Adjust

Procedure

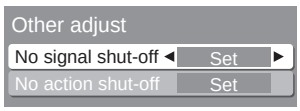

1. Press ▲▼ to select “Other adjust”.

2. Press OK to display the Other adjust menu.

3. Press ▲▼ to select each item.

4. Press ◄► to select “Set” or “No”.

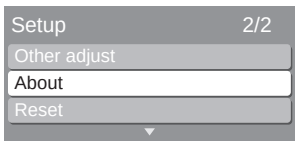

No signal shut-off	To conserve energy, this Projection Display automatically turns off when NO SIGNAL continues more than 10 minutes. **Notes** • Not in use when setting “PC”, “Photo viewer mode”, “Lock”, or Digital channel. • “No signal shut-off was activated” will be displayed for about 10 seconds when this Projection Display is turned on for the first time after turning the power off by “No signal shut-off”. • The on-screen display will flash 3, 2 and 1 to indicate the last three (3) remaining minutes prior to the shut-off.
No action shut-off	To conserve energy, this Projection Display automatically turns off when no operation of remote or front panel key continues more than 3 hours. **Notes** • Not in use when setting “PC”. • “No action shut-off was activated” will be displayed for about 10 seconds when this Projection Display is turned on for the first time after turning the power off by “No action shut off”. • The on-screen display will flash 3, 2 and 1 to indicate the last three (3) remaining minutes prior to the shut-off.

About

Display the TV set Version and Software License.

Procedure

1. **Press ▲▼ to select “About”.**
2. **Press OK to display the About screen.**

3. **Press ▲▼ to select “Version” or “License”.**
4. **Press OK to display the Version or License screen.**

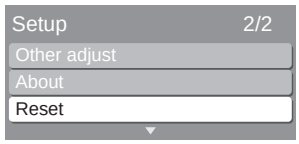

Reset

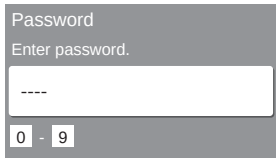

Setup is reset.

Procedure

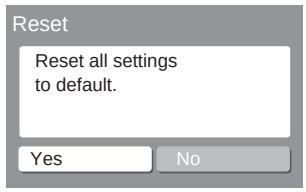

1. **Press ▲▼ to select “Reset”.**
2. **Press OK to display the password screen.**

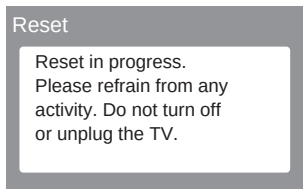

3. **Enter your password by pressing the NUMBER keys to reset the Setup settings.**

4. **The confirmation screen is displayed. Select “Yes”, and press OK.**

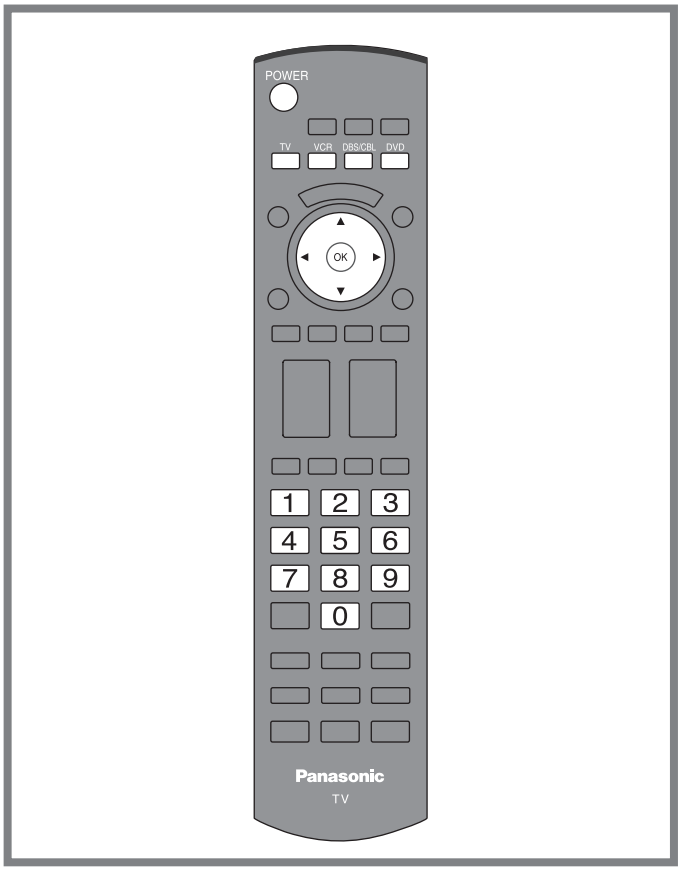

Notes

- Performing Reset will clear all items set with Setup, such as channel settings. Use Reset with care.
- POWER indicator flashes red. After flashing stops, unplug the unit then plug it back in and turn power ON.
- When using “EZ Sync™ “HDAVI Control™””, with the device connected, set “EZ Sync” first to “Off” and then “On” using the Setup Menu. (p. 52-53)

Operating Peripheral Equipment

You can operate other manufacturers' equipment using this Projection Display's remote control.

Procedure

1. **Connect the external equipment to the Projection Display and Power Off the external equipment.**
2. **Press POWER and OK simultaneously for more than 3 seconds.**
   - Release the buttons when the equipment selection buttons start flashing.
3. **Select the equipment with the equipment selection button (VCR, DBS/CBL, DVD).**
   - The selected button remains lit (other buttons are not lit).
4. **Press the NUMBER keys to input the equipment's 4-digit remote control code. (p. 58-60)**
5. **Press POWER to operate the equipment with the remote control. (p. 57)**
   - The external equipment turns On.

■ If the equipment does not operate with the remote control

- When your equipment has a single code
  → Input the remote control code again
- When your equipment has multiple codes
  → Change the code with step 4 and test again

■ Return to the TV mode

Press TV.

Caution

- Registration will fail if the wrong code is input or it takes more than 30 seconds to register.

To find a code not listed in the code list

This procedure searches all codes and is called the "sequence method."

Procedure

1. **After step 3, press ► and POWER to change the code and test.**
   - Operate the equipment with the remote control. (p. 57)
   - Repeat until the code is found.
   - It may take many attempts before the correct code is found.
2. **When the correct code is found, press OK.**

Remote Control Operation/Code List

The following explains how to operate external devices with the remote control.

- Register the remote control codes (p. 56) if you want to operate an external device of another manufacturer. (p. 58-60)

Note

- Operation may not be possible depending on the available memory size of the remote control.
  This remote control is not designed to cover operation of all functions of all models.

■ Remote Control Operation List

This chart defines which keys are operational after programming (if needed) while in the selected remote control mode, CABLE, DBS, VCR, or DVD.

Warning Indicators

Indicator lights on the front of the unit alert you to the unit's internal condition. (p. 10)
If the Power or LAMP indicators flash, turn unit off and follow the directions below.

	Indicator	Symptom	Problem	Possible Solution
POWER Indicator	Flashes orange 1 time.	Power shuts off.	Malfunction 1.	Disconnect the AC plug, and wait for about 5 seconds. Reconnect the AC plug, then turn unit power on. If error persists, contact service center.
	Flashes orange 2 times.	Power shuts off.	Malfunction 2.	
	Flashes orange 3 times.	Power shuts off.	Malfunction 3.	
	Flashes orange 4 times.	Power shuts off.	Malfunction 4.	
	Flashes orange 6 times.	Power shuts off.	Malfunction 5.	
	Flashes orange 7 times.	Power shuts off.	Malfunction 6.	
	Flashes orange 9 times.	Power shuts off.	Malfunction 7.	
	Flashes orange 10 times.	Power shuts off.	Malfunction 8.	
LAMP Indicator	Flashes red 2 times.	Power shuts off.	Malfunction 9.	Wait for about 1 minute, then try turning Power On several times. If error persists, contact service center.
	Flashes red 3 times.	Power shuts off.	Internal overheat error.*1	
	Flashes red 4 times.	Power shuts off.	Internal overheat error.*1	
	Flashes red 5 times.	Power shuts off.	Malfunction 10.	
	Flashes red 8 times.	Power shuts off.	Malfunction 11.	Disconnect the AC plug, and wait for about 5 seconds. Reconnect the AC plug, then turn unit power on. If error persists, contact service center.
	Flashes red 9 times.	Power shuts off.	Malfunction 12.	
	Flashes red 10 times.	Power shuts off.	Malfunction 13.	
	Flashes red 11 times.	Power shuts off.	Malfunction 14.	
	Flashes red 12 times.	Power shuts off.	Malfunction 15.	
	Flashes red 13 times.	Power shuts off.	Malfunction 16.	Wait for about 5 seconds, then try turning Power On several times. If error persists, contact service center.

*1: Once necessary steps have been taken, and before turning unit back On, be sure the unit has sufficiently cooled down. Especially if the unit was used for a long period, the lamp may take a while to cool down.

Troubleshooting

Before you call for service, determine the symptoms and make a few simple checks as shown below.

Problem		Possible solution	Page
Power does not turn ON.		• Is the power cord plugged in?	24
Remote Control/ Unit buttons do not function. Power does not turn ON or OFF. Image is distorted. Image freezes.		• Press unit POWER button down over 7 seconds. The POWER indicator goes out. If the Power was On, the screen will also disappear. After 5 seconds, turn Power On and operate unit normally. If the steps above do not restore normal operation, disconnect then reconnect the AC plug and turn the power On.	-
The power turns OFF.	Power turns off while another indicator is flashing.	• Please consult your nearest dealer.	61
Remote Control does not function.		• Are the batteries dead or inserted incorrectly?	7
		• Is the Remote Control sensor in direct fluorescent lamp light or other strong sources of light?	10
Image shakes.		• Is the antenna or antenna cable old, broken, or shorted out?	-
Image is not clear. (blurring / vertical lines)		• Is the antenna cable connected properly?	12-17
		• A sudden temperature change may have caused condensation in the internal optics which results in blurring or vertical lines. Please wait until room temperature is normal and constant before turning power ON. These symptoms will clear up as time passes.	-
		• Depending on the connected device, a 1080i input signal may cause the picture to flicker. If the connected device has a format selection switch, set the format to 720p.	-
Color patches or no color.		• When using a VCR and selecting channels on the TV, is the TV/VIDEO mode for the VCR set to TV?	-
Image appears doubled or tripled.		• Is the antenna facing the right direction?	-
		• Is the antenna receiving any signals reflected off of mountains or buildings?	-
Images disappear at the top and bottom of the screen.		• When using 16:9 image software (cinema vision size software, etc.), there is no picture at the top and bottom of the screen.	-
During ZOOM modes, the image is cut off at the top and bottom.		• Please adjust the V-Size. This is not a mulfunction.	33, 36
Some parts of the screen are always lit while others do not light up. Some parts of the screen do not light up.		• This is a characteristic of the LCD panel and not a malfunction.	-
Fan is operating even though TV Power is OFF.		• This is because the cooling fan is operating. The fan will stop after about 3 minutes.	24
Leaving stationary images, such as still video images, web pages, or filler bars (used for NORMAL aspect mode), on-screen for an extended period of time can leave ghost images on the screen.		• This is a characteristic of the LCD panel and not a malfunction. Try displaying constantly moving pictures which fill the entire screen, or turn the power OFF for a while to return the screen to normal.	-
Pictures from equipment are unusual when the equipment is connected via HDMI.		• Is the HDMI cable connected properly?	12, 14-18, 21-22
		• Turn Off the TV unit and device, then turn them On again.	-
		• Check the input signal from the equipment.	29
No sound is produced.		• Is “Sound Mute” active?	30
		• Is the volume set to the minimum?	29
		• Is “Speaker output” set to “Off”?	39
		• Change “SAP” settings.	32
		• Check “HDMI 1 in”, “HDMI 2 in” or “HDMI 3 in” insettings when the equipment is connected via HDMI.	39
		• If digital sound connection has problem, select analog sound connection.	21-23, 39

Panasonic LIFI™ HDTV
Limited Warranty

Limited Warranty Coverage

If your product does not work properly because of a defect in materials or workmanship, Panasonic Consumer Electronics Company or Panasonic Sales Company (collectively referred to as "the warrantor") will, for the length of the period indicated on the chart below, which starts with the date of original purchase ("warranty period"), at its option either (a) repair your product with new or refurbished parts, or (b) replace it with a new or a refurbished product. The decision to repair or replace will be made by the warrantor.

CATEGORY	PARTS	LABOR	SERVICE
LIFI™ HDTV	One (1) Year TV Original LIFI™ lamp unit - 5 years	One (1) Year TV Original LIFI™ lamp unit - 3 years	In-Home or Carry-In

During the "Labor" warranty period there will be no charge for labor. During the "Parts" warranty period, there will be no charge for parts. You must carry-in your product or arrange for in-home service during the warranty period. If non-rechargeable batteries are included, they are not warranted. This warranty only applies to products purchased and serviced in the United States or Puerto Rico. This warranty is extended only to the original purchaser of a new product which was not sold "as is". A purchase receipt or other proof of the original purchase date is required for warranty service.

Carry-in or In-Home Service

For In-Home or Carry-In Service in the United States call 1-888-VIEW-PTV (1-888-843-9788).
For assistance in Puerto Rico call Panasonic Sales Company (787)-750-4300 or fax (787)-768-2910.
In-Home service requires clear, complete and easy access to the product by the authorized servicer and does not include removal or re-installation of an installed product. It is possible that certain in-home repairs will not be completed in-home, but will require that the product, or parts of the product, be removed for shop diagnosis and/or repair and then returned.

Limited Warranty Limits And Exclusions

This warranty ONLY COVERS failures due to defects in materials or workmanship, and DOES NOT COVER normal wear and tear or cosmetic damage. The warranty also does not cover damages which occurred in shipment, or failures which are caused by products not supplied by the warrantor, or failures which result from accidents, misuse, abuse, neglect, bug infestation, mishandling, misapplication, alteration, faulty installation, set-up adjustments, misadjustment of consumer controls, power line surge, lightning damage, modification, or commercial use (such as in a hotel, office, restaurant, or other business), rental use of the product, service by anyone other than a Factory Servicenter or other Authorized Servicer, or damage that is attributable to acts of God.

THERE ARE NO EXPRESS WARRANTIES EXCEPT AS LISTED UNDER "LIMITED WARRANTY COVERAGE". THE WARRANTOR IS NOT LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY. (As examples, this excludes damages for lost time, cost of having someone remove or re-install an installed unit if applicable, or travel to and from the servicer. The items listed are not exclusive, but are for illustration only.) **ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY, ARE LIMITED TO THE PERIOD OF THE LIMITED WARRANTY.**

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the exclusions may not apply to you.

This warranty gives you specific legal rights and you may also have other rights, which vary, from state to state. If a problem with this product develops during or after the warranty period, you may contact your dealer or Servicenter. If the problem is not handled to your satisfaction, then write to the warrantor's Consumer Affairs Department at the addresses listed for the warrantor.

PARTS AND SERVICE (INCLUDING COST OF AN IN-HOME SERVICE CALL, WHERE APPLICABLE) WHICH ARE NOT COVERED BY THIS LIMITED WARRANTY ARE YOUR RESPONSIBILITY.

Limited Warranty (for Canada)

Panasonic Canada Inc.

PANASONIC PRODUCT – LIMITED WARRANTY

Panasonic Canada Inc. warrants this product to be free from defects in materials and workmanship and agrees to remedy any such defect for a period as stated below from the date of original purchase.

		Parts	Labour
LCD Rear Projection TV	**In home Service**	TV - One (1) year Original LIFI™ lamp unit - 5 years	1 Year

In-home Service will be carried out only to locations accessible by roads and within 50 km of an authorized Panasonic service facility.

LIMITATIONS AND EXCLUSIONS

This warranty does not apply to products purchased outside Canada or to any product which has been improperly installed, subjected to usage for which the product was not designed, misused or abused, damaged during shipping, or which has been altered or repaired in any way that affects the reliability or detracts from the performance, nor does it cover any product which is used commercially. Dry cell batteries are also excluded from coverage under this warranty. This warranty is extended to the original end user purchaser only. A purchase receipt or other proof of date of original purchase is required before warranty service is performed.

THIS EXPRESS, LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

IN NO EVENT WILL PANASONIC CANADA INC. BE LIABLE FOR ANY SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES.

In certain instances, some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, or the exclusion of implied warranties, so the above limitations and exclusions may not be applicable.

WARRANTY SERVICE

For product operation and information assistance, please contact:

Our Customer Care Centre:
Telephone #: (905) 624-5505
1-800 #: 1-800-561-5505
Fax #: (905) 238-2360
